

**For the attention of customers
of Bournemouth and
West Hampshire Water:**

We are inviting comments on proposals to protect customers of Bournemouth and West Hampshire Water plc following changes to the way it finances its business.

We propose to modify the company's conditions of appointment which will ensure that its ability to carry out and finance its functions as a water company is not put at risk from other activities which may be carried out by its group.

A complete copy of the proposals is available on our website www.ofwat.gov.uk or from our library by calling 0121 625 1373.

The consultation closes on Friday 24 June.
