31 January 2014

Dear Sheila,

### **Response to Ofwat SIM Consultation**

I enclose on behalf of the UKWIR SIM Project Team the outputs from both our 2012 project and the 2014 project currently underway for consideration in response to the SIM consultation.

The Steering Group and the Project Team have been keen to advance as much as possible our research to help inform the development of the SIM in the future. We should highlight the caveat that our most recent outputs (January 2014) are initial findings, they are still subject to further discussion and agreement with the Steering Group and that this project is unlikely to be completed until March 2014.

Kind regards

**Julian Jacobs**
