Subject: RE: Water non household retail market opening: Formal consultation on changes to water company licences for market readiness and in area trading ban

In David's absence I can confirm that Albion has no objection to the removal of the in-area trading ban. We do however continue to have concerns about the behaviour of some incumbents in the provision and pricing of developer services and would not wish any licence change to send the signal that Ofwat is relaxed about anti-competitive behaviour in-area

Regards,

Jerry
