RE: Water non household retail market opening: Formal consultation on changes to water company licences for market readiness and in area trading ban

Bill

The views I expressed for SWT and SBW also apply to Source for Business and Avon Valley.

Would be good to talk through our intentions with both of those and the wider Pennon Group - perhaps a call next week if that works for you.

Regards

Iain

Iain,

Many thanks for your response below and apologies for troubling you further as I understand from Chris Pepper that you are on leave this week.

We are just trying to work out where things stand in respect of the two WSLs that are associates of SBW/yourself – so Avon Valley and Source for Business.

We want to be able to confirm the overall picture across all licensees/appointment holders.

So can you please drop us a brief line to confirm whether your response below can also be taken to cover both Avon Valley Water Ltd and Source for Business – and obviously if relevant how their views differ?

Grateful if you could respond asap as we are trying to progress matters ahead of the Welsh pre-election period.

Once you are back at work, we may also need to have a brief conversation about your intentions regarding the two WSL licences – this is just to understand whether both will continue to be held and hence will need the readiness condition appended.

Many thanks for your help.

Regards,

Bill Easton

Tim

Thanks for the email and various documents.

South West Water are supportive of the two consultations, believing them to be helpful from the perspective of customers and market developments.

We will therefore not be responding other than to make this acknowledgement.

If you need anything further please do not hesitate to contact me.

Kind regards

Iain
