

Line Description	Units	DPs	2011-12	2012-13	2013-14	2014-15
1 Total 1 in 10 and 2 in 10 properties on the register at end of year	nr	0	92	98	101	103
2 Added because of better information	nr	0	43	22	40	30
3 Removed because of better information	nr	0	8	1	6	6
4 Removed by company action	nr	0	45	15	31	22

Commentary: Figures are for internal property sewer flooding

Line 4: Removals by company action are lower than anticipated due to a lower number of properties being added to the internal registers than predicted.

Consequently we have agreed a change protocol with Ofwat (Ofwat/Wessex letter dated 17 January 2012) and with CCWater to outperform against our external target so that the total number of properties and areas removed from the risk registers equal our commitments in the PR09 Final Determination (527 outputs).

We are on track to deliver this.
