

Wholesale Retail Code Change Proposal (CP) 028

Modification proposal:	Wholesale Retail Code Change Proposal 028: CSD0405 Updates		
Decision:	Ofwat has decided to confirm these change proposals		
Date of publication:	9 March 2016	Implementation date:	Immediate

Background

As part of the detailed works undertaken by MOSL and its IT system developer a number of small issues have been discovered in CSD405. Poor drafting between paragraphs 2.4.1 and 3.4.1b of a non-material nature is corrected in this proposal as well as correcting the numbering of these paragraphs.

The modification proposal¹

MOSL proposed WRC028 to correct a total of six small errors within CSD405. The errors include documenting processes which are automatic to the CMOS system such as saving of data entered by the user. All six changes and the associated changes to numbering are considered non-controversial and non-material.

Interim Code Panel recommendation

At its meeting on 9 March 2016, the Interim Code Panel voted unanimously to recommend WRC028. Minutes of the meeting indicate Panel considered the change to positively impact on the transparency of the code².

¹ The proposal is available on the Open Water website

Our decision

After review of the supporting documentation we have concluded that the implementation of WRC028 is consistent with the Principals and Objectives³ and will improve efficiency of the code. We consider that confirming this change is consistent with our principal objectives and statutory duties.

Reasons for our decision

We consider that the implementation of and WRC028 will contribute to effective codes and changes contained are correct and desirable.

Adam Cooper
Director, Retail Market Opening
