Dear Sir,

Re: Consultation on self-supply licences

Thank you for the opportunity to respond to the above consultation.

We are in general support of the changes to the WSSL standard conditions for self-supply licence. In particular, the summary of changes in table 1 of the consultation document appears sensible whilst at the same time giving the relevant protection to wholesalers.

Please do not hesitate to contact me if you have any questions.

Yours faithfully,

Philip Saynor,
Director of Finance and Regulation
South Staffordshire Water PLC
