

2016-17 Special Agreement Register: Severn Trent Water Ltd

Special Agreement Information

Potable Water

SVTPOT1 – SVTPOT374 (Concessionary Supplies)

These are all pre-1974 inherited agreements running in perpetuity. These totalled 195 in 2014-15. Total volume of water supplied to them that year was around 269MI; this generated revenue of just over £64,000.

Non-potable Water

SVTNONPOT1

This agreement is for the supply of final effluent water from sewage treatment works for use as process water. The fixed charge applied is for a supply of up to 150m³/day; any excess attracts a volumetric rate.

SVTNONPOT2

This agreement is for the supply of final effluent water from sewage treatment works for use as process water. A uniform volumetric rate is applied to all volumes supplied, inflated by tariff basket RPI each year. In addition, the customer pays for any reasonable costs incurred by company for conveying the effluent to its site

SVTNONPOT3

This agreement is for the supply of final effluent water from sewage treatment works for use as process water. A uniform volumetric rate is applied to all volumes supplied, subject to a minimum charge for 4,546m³. The volumetric rate is inflated by tariff basket RPI each year. In addition, the customer pays for any reasonable costs incurred by company for conveying the effluent to the customer's site, disinfecting it, and any associated maintenance costs.

Sewerage

SVTSEW1 – SVTSEW8

These are existing services identified as special agreements, and believed to pre-date privatisation.

Trade Effluent

SVTTE2

This agreement commenced in 1968 to run for 99 years. The charge is for the removal of solids, metals, cyanide and sulphate and is related to the cost of treatment at sewage treatment works.

SVTTE3

This customer is charged at a reduced R charge to reflect customer contribution to costs of connection.

SVTTE4

Agreed in 2000 to run for five years and amended in 2005. Variant of standard Mogden formula is applied to reflect unique discharge arrangements: no R charge because customer is not connected to public sewer; reduced V charge reflecting degree of treatment provided; B charge based on total COD rather than settled COD; and reduced S charge due to the nature of the discharge arrangements.

SVTTE5

One-off payment of £25,000 made in 1987 for the disposal in perpetuity of leachate from a landfill site.
