4 November 2016

Dear Sir,

REGARDING: CONSULTATION ON THE FINAL 2010-15 RECONCILIATION

We welcome Ofwat publishing its blind-year adjustment calculations early in the control period. This helps provide transparency to all parties, and enables a lengthy period of scrutiny ahead of the next price review where adjustments will be taken into account.

Publishing such information as and when it becomes available can help reduce the workload at PR19, enabling all parties to focus on other areas of the review, thus helping to ensure that customers get the best possible outcome.

We have no further comments on the blind-year adjustment at this time.

Yours faithfully,

Iain Vosper
Regulatory Director
