Subject: 2010-15 final reconciliation consultation U UW response
Date: 31 March 2017 14:47:32

This note provides United Utilities comments on the proposals set out within the document "*Further consultation on the 2010-15 final reconciliation for the change protocol and overlap mechanisms*".

We acknowledge the revision that Ofwat has made in its proposed handling of these two areas and agree with the rationale for the changes, as set out within the consultation document. We also believe that the revised approach has produced an outcome, which is more in line with the original intent of these two mechanisms.

For confirmation we do not believe that this response would have any impact on other interested parties and we do not regard the response as being confidential.
