Dear Sirs

Re: Response to Consultation on the Code for Adoption Agreements- June 2017 Water Infrastructure

1. We think with a document of this fundamental importance, you should write to each SLP and Water Company at each critical step and briefly update them and refer them to where the latest information can be found.
2. We are no prepared to accept the inclusion of the Codes of Practise for the Self- Laying of Water Mains and Services- England and Wales- Edition 3.1- May 2017 into any proposed adoption agreements. We think that the Codes of Practise are anticompetitive.

Yours faithfully

Tim Kilroe
