

**Proposal to grant a variation of appointment to
Albion Water Limited to enable it to provide
sewerage services to a site called Knowle Water
Meadows**

Corrigendum

About this document

On 5 February 2019, we published a [consultation](#) on a proposal to grant a variation of appointment to Albion Water Limited as a sewerage company to enable it to provide sewerage services to a Site called Knowle Water Meadows.

The consultation notice contained factual inaccuracies. This document sets out a series of amendments required to correct the inaccuracies in the original consultation notice and provides for a further period of consultation, in light of these amendments.

Table 1 sets out the required amendments. A further period of consultation will last for 10 days from the date of publication of this corrigendum

Table 1

Page & Paragraph	Existing text	Amended as
Page 9 Paragraph 6.3	ALB proposes to match the charges of SRN on the Site	ALB proposes to offer a 5% volumetric tariff reduction for metered sewerage customers.
Page 10 -11 Paragraph 6.7	<p>In considering whether customers will be no worse off, we also considered the potential effects of this variation on the prices that SRN's existing customer base may face.</p> <p>The calculation necessarily depends on a range of assumptions, and there are clearly difficulties involved in quantifying the effect. It is therefore necessary to use a simplified set of figures. We have expressed the effect in 'per bill' terms to try to quantify the possible effect in an easily understandable way.</p> <p>We have assessed the potential magnitude of this impact by comparing how much SRN might have expected to receive in revenue from serving the Site directly, were they to serve the Site, with the revenues they</p>	<p>In considering whether customers will be no worse off, we also considered the potential effects of this variation on the prices that SRN's existing customer base may face.</p> <p>The particular circumstances of this variation is that the Site could be served by the incumbent following the installation of lengthy pipework between the Site and its nearest infrastructure, together with the cost of upgrading treatment works.</p> <p>Although it has not been quantified, the cost of providing the necessary connection to the incumbent's infrastructure will be greater than the revenue that SRN might reasonably have expected as a result of serving the Site. As a consequence, we estimate that customers of SRN will be no worse off if we grant this variation to ALB.</p>

	<p>might expect from the proposed arrangement with ALB.</p> <p>We estimate a potential £0.001 annual increase on the sewerage bills of existing SRN customers if we grant this variation to ALB.</p>
