

Ofwat's innovation fund for the future
John Russell/ Jonathan Read/ Rachel Wright/
Marc Hannis
10 June 2020

- Please be aware that we will be recording today's session.
- To help ensure the webinar runs smoothly, please remain on mute with your video switched off.
- We will be using Sli.Do today so please visit www.sli.do and join using **#Ofwatinnovation** to submit questions and share your views.
- Our innovation consultation closes on **24 June 2020**. Today is an opportunity to find out more about our proposals, ask questions and feed in early views.

thriving natural environment

safe and reliable water

public value

Responding and adapting to **climate change** including how to meet the sector's ambition of **net-zero emissions**

Exploring the opportunities associated with **open data**, stimulating innovation and collaboration, for example encouraging **new business models and service offerings** that benefit customers

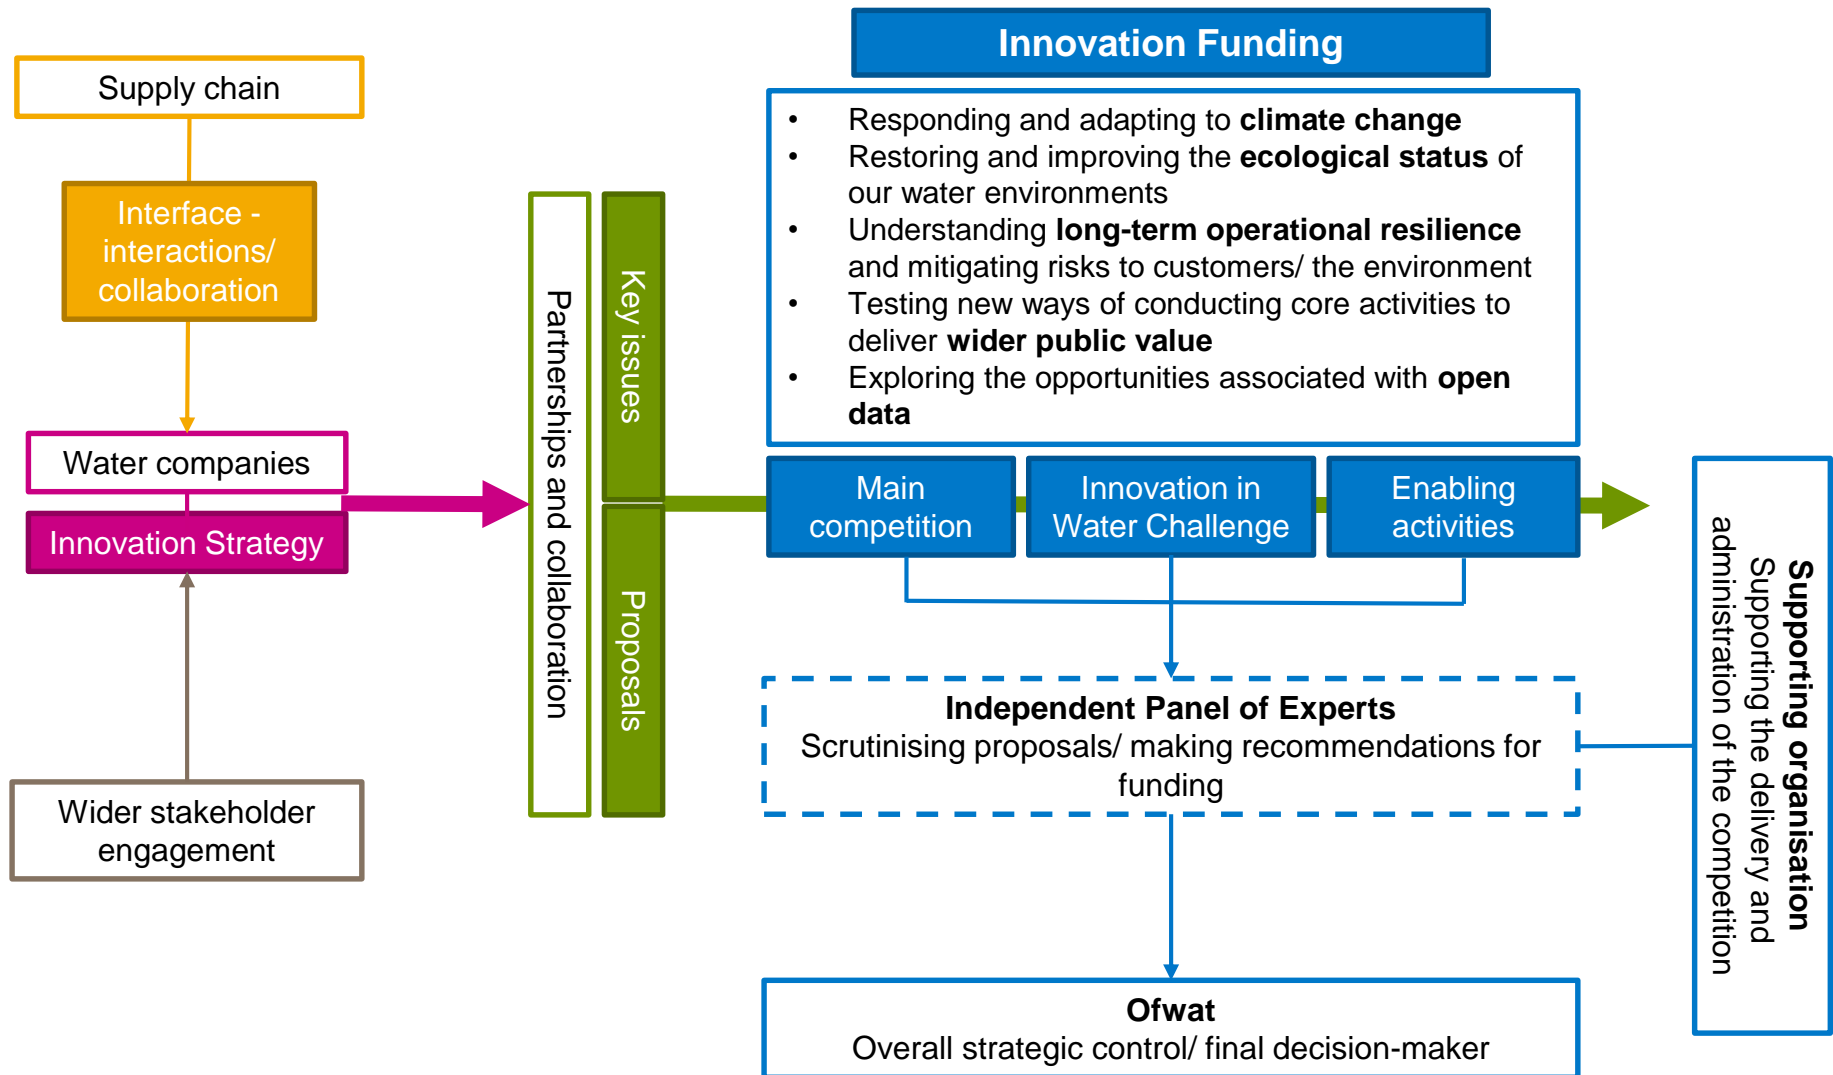

Testing new ways of conducting core activities to deliver wider **public value**

Restoring and improving the **ecological status of our water environments**, protecting current and future customers from the impacts of extreme weather and pollution

Understanding **long-term operational resilience** and infrastructure risks to customers and the environment, finding solutions to mitigate these in sustainable and efficient ways

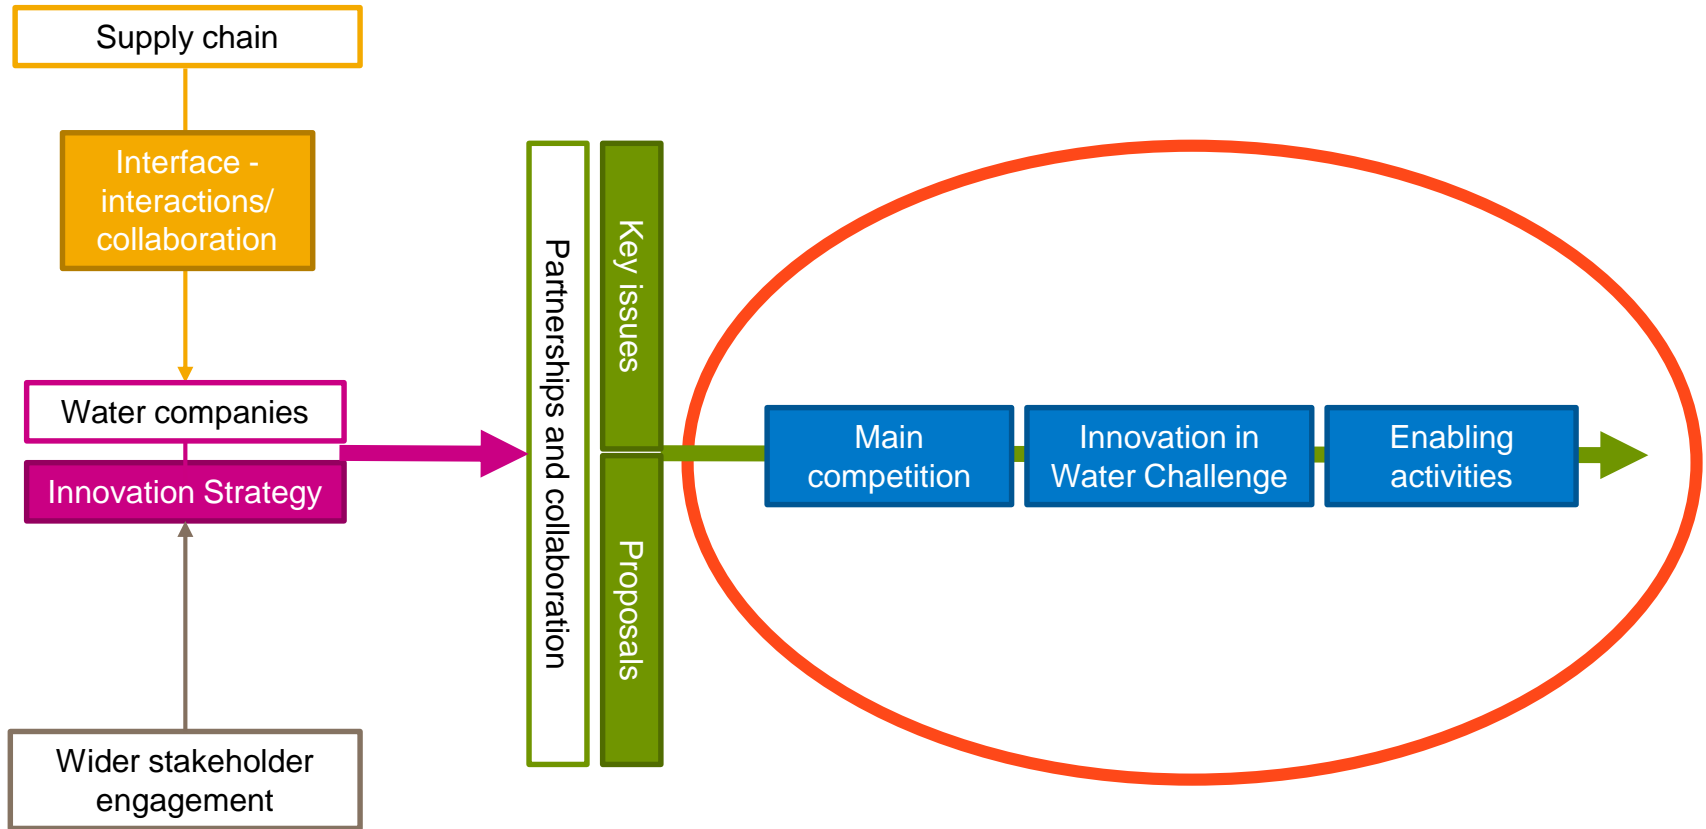

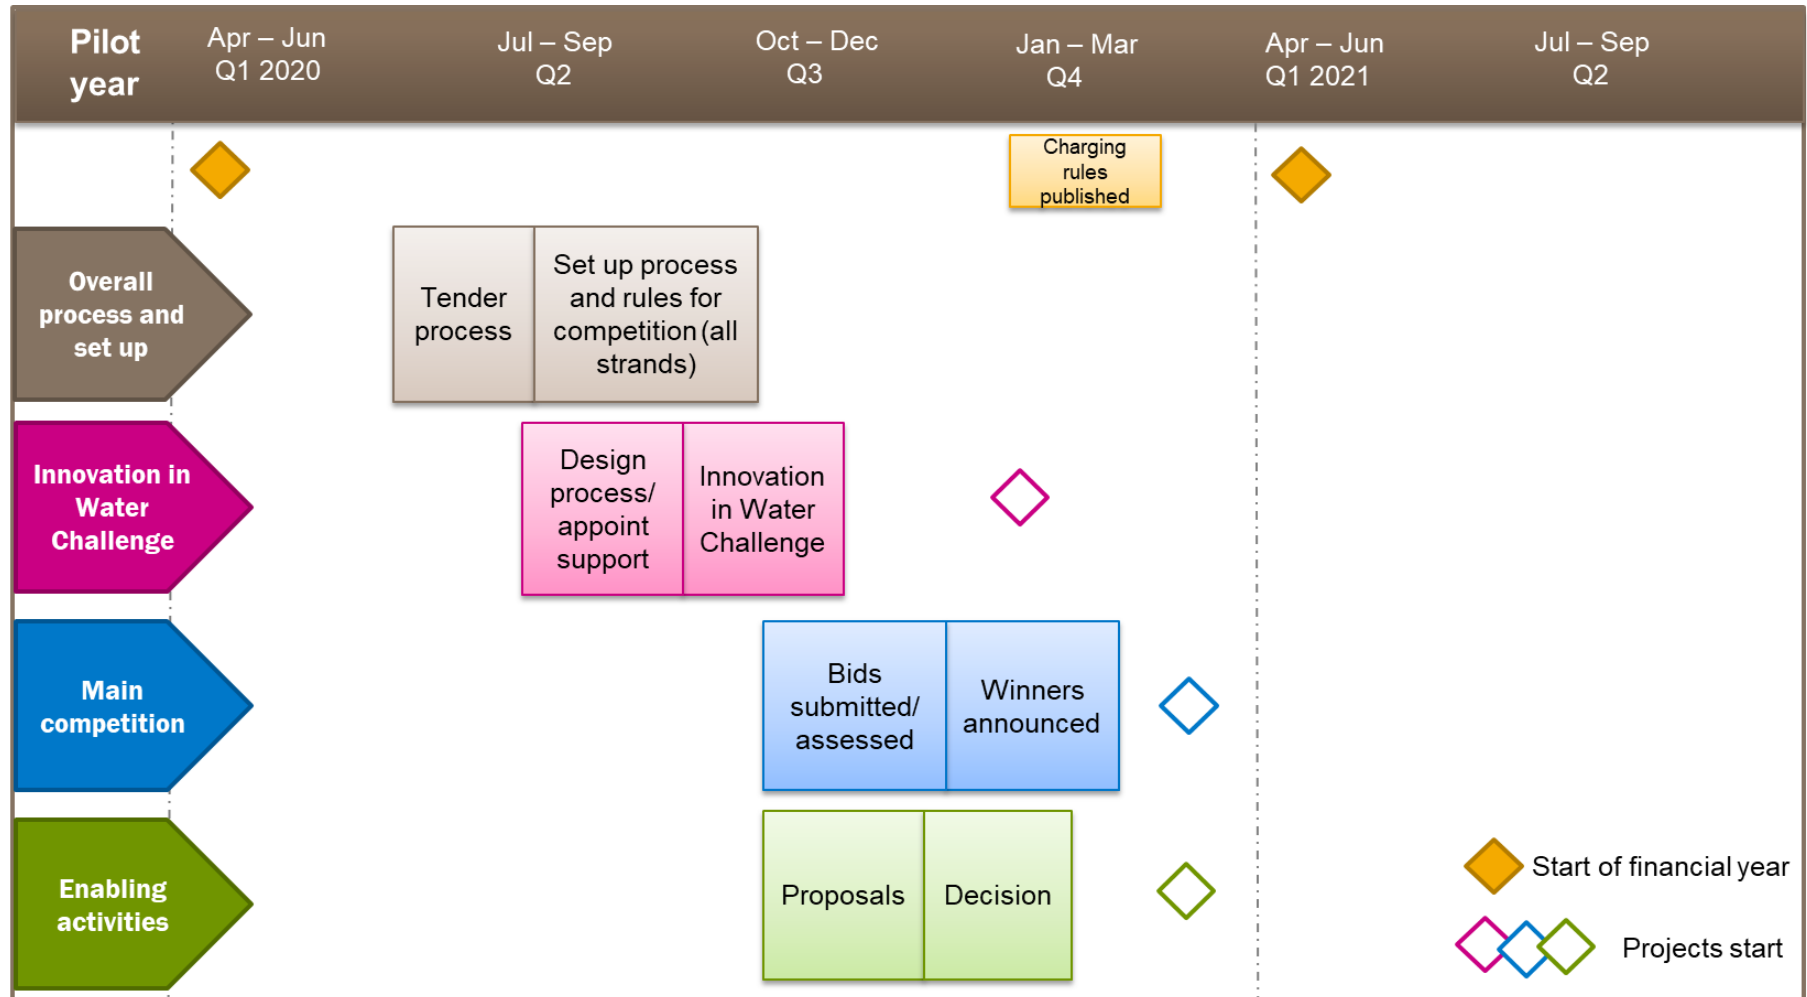

Intellectual Property

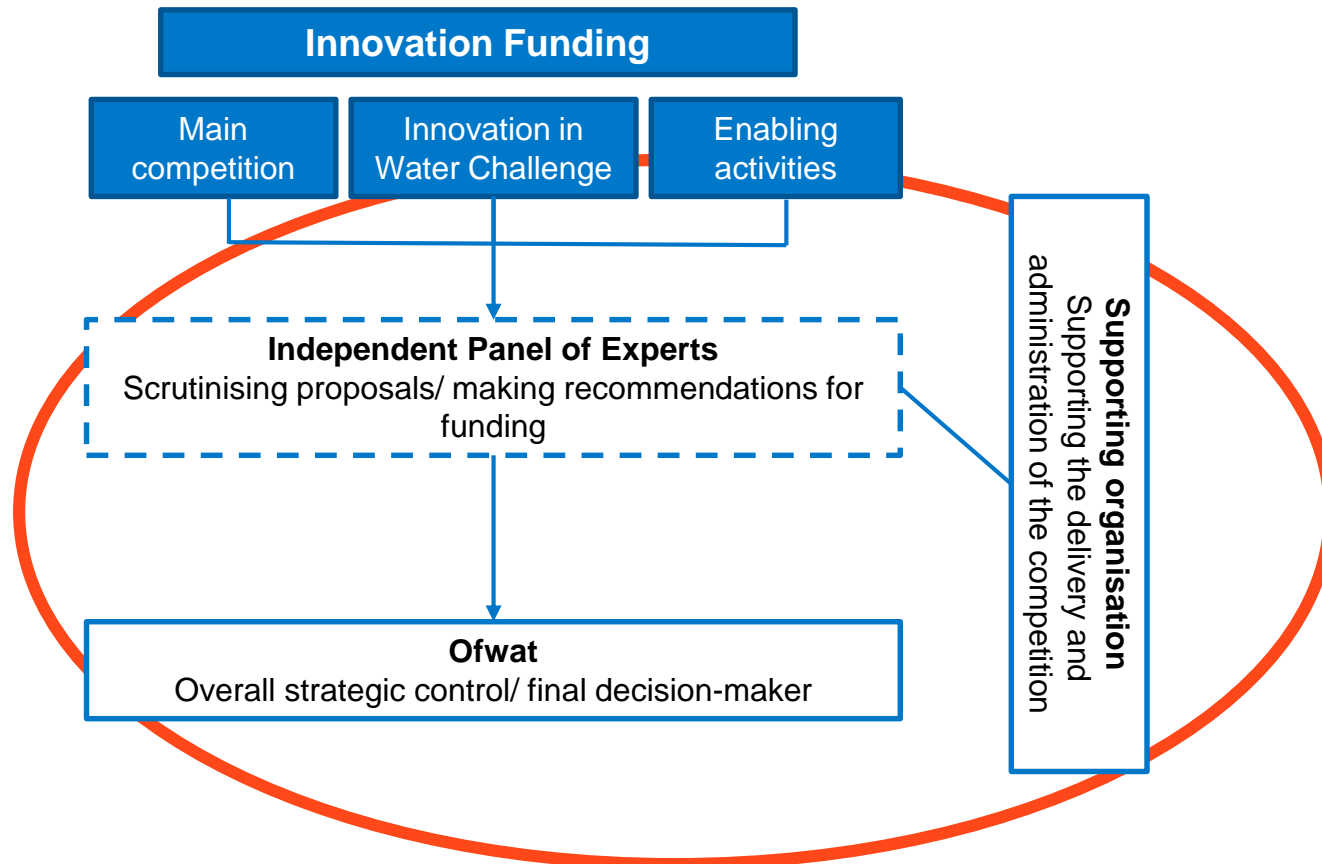

Rights: how do we strike the right balance between protecting customers and attracting innovation?

Risk sharing: how do we appropriately share risks between the water companies and their customers? How do we ensure we encourage water companies of all sizes to take part?

Partnerships and collaboration: how do we proactively encourage partnerships and collaboration, including with SMEs and new players in the sector?
