## D-MeX

### PR19WSX\_X2

The detail for this performance commitment is set out on pages 48-51.

On [page 48](#), in the 'Performance commitment definition and parameters' table for:

|  |  |
|--|--|
| <p><b>Detailed definition of performance measure</b></p> | <p>D-MeX is a measure of customer satisfaction. A company's overall D-MeX score is calculated from two components that contribute equally:</p> <ul style="list-style-type: none"> <li>• qualitative D-MeX score, based on the ratings provided by developer services customers who transacted with the company throughout the reporting year to a customer satisfaction survey; and</li> <li>• quantitative D-MeX score, based on the company's performance against a set of selected Water UK performance metrics throughout the reporting year.</li> </ul> <p>The survey results which are used to calculate the qualitative component of the company's D-MeX score will be supplied by a survey agent appointed by Ofwat. This is supplied out of 100 to form the score for the qualitative component of D-MeX.</p> <p>The set of Water UK performance metrics which are used to calculate the quantitative component of the company's D-MeX score, in place at the time of PR19 final determinations publication, are set out in annex 2 of 'PR19 final determinations: Customer measure of experience (C-MeX) and developer services measure of experience (D-MeX) policy appendix'. For each metric, a percentage is reported and a simple average of these metrics is taken. This is rescaled to be out of 100 to form the score for the quantitative component of D-MeX.</p> |
