

1. Company

All Lines as per APR

2. Transport Data

Main data source is loggers located at SVE STCs and Inlets, plus additional sludge loggers at Newtown

For any site that is a joint STW and STC – movements are not separated between the STW and STC parts of the work. Movements are amalgamated as STC.

No transport routes recorded for Dolanog STW. This is a low PE site and likely to be included in another transport route.

3. Total Capacity, Tradeable Capacity & Headroom Capacity

We do not have any Bioresources assets in Hafren Dyfrdwy, therefore these sheets are blank.
