

1. Company

Line 1/2/3/4 – As per APR

Line 5 – Total measure of intersiting work done by tanker. This figure varies from the APR return due to further data being available.

Line 6 – As per APR

Line 7 - Underlying data for APR submission

Line 8 – Liquid Intersiting tonnage by pipeline. As above, further available now available. This figure is revised figure.

Line 9 – Underlying data for APR submission

2. Transport Data

Main data source is Sludge logger data situated at all STCs and main Inlet points.

For any site that is a joint STW and STC – movements are not separated between the STW and STC parts of the work. Movements are amalgamated as STC.

TDS Data varies from Market information on the following sites for the following reasons. In all cases, updated TDS figure is shown on Market Data sheet

Site	Notes
BARNHURST (STW) (Wolverhampton)	Both STW and STC are shown on site list. Figure included in STC data so removed from STW data
BRANCOTE (STW) (Stafford)	Both STW and STC are shown on site list. Figure included in STC data so removed from STW data
CANNOCK (STW)	TDS on Published Market Information sheet reflected road transport only. TDS updated to include pipeline and road
CLAYMILLS (STW) (Burton upon Trent)	Both STW and STC are shown on site list. Figure included in STC data so removed from STW data
COALPORT (STW) (Telford)	Both STW and STC are shown on site list. Figure included in STC data so removed from STW data
COLESHILL (STW)	TDS on Published Market Information sheet reflected road transport only. TDS updated to include pipeline and road
COUNTESTHORPE (STW)	Discharge into sewer - out of scope for Published Market Information sheet
DERBY (STW)	Both STW and STC are shown on site list. Figure included in STC data so removed from STW data
GOSCOTE (STW) (Walsall)	Discharge into sewer - out of scope for Published Market Information sheet
HAYDEN (STW) (Cheltenham)	Both STW and STC are shown on site list. Figure included in STC data so removed from STW data

MARKET DRAYTON (STW)	Incorrect data published - updated TDS info
MARSTON LANE BEDWORTH (STW)	Discharge into sewer - out of scope for Published Market Information sheet
MELTON (STW) (Melton Mowbray)	Both STW and STC are shown on site list. Figure included in STC data so removed from STW data
MINWORTH (STW) (Birmingham)	Both STW and STC are shown on site list. Figure included in STC data so removed from STW data
MONKMOOR (STW) (Shrewsbury)	Both STW and STC are shown on site list. Figure included in STC data so removed from STW data
NETHERIDGE (STW) (Gloucester)	Both STW and STC are shown on site list. Figure included in STC data so removed from STW data
RAY HALL (STW) (West Bromwich)	Discharge into sewer - out of scope for Published Market Information sheet
ROUNDHILL (STW) (Stourbridge)	Both STW and STC are shown on site list. Figure included in STC data so removed from STW data
RUGBY NEWBOLD (STW)	Both STW and STC are shown on site list. Figure included in STC data so removed from STW data
RUSHMOOR (STW) (North Telford)	Both STW and STC are shown on site list. Figure included in STC data so removed from STW data
SCUNTHORPE-YADDLETHORPE (STW)	Both STW and STC are shown on site list. Figure included in STC data so removed from STW data
STANLEY DOWNTON (STW) (Stroud)	Both STW and STC are shown on site list. Figure included in STC data so removed from STW data
STOKE BARDOLPH (STW) (Nottingham)	Both STW and STC are shown on site list. Figure included in STC data so removed from STW data
STRONGFORD (STW) (Stoke on Trent)	Both STW and STC are shown on site list. Figure included in STC data so removed from STW data
TOTON (STW) (Long Eaton)	Both STW and STC are shown on site list. Figure included in STC data so removed from STW data
WALSALL WOOD (STW)	Discharge into sewer - out of scope for Published Market Information sheet
WANLIP (STW) (Leicester)	Both STW and STC are shown on site list. Figure included in STC data so removed from STW data
WHETSTONE (STW)	Discharge into sewer - out of scope for Published Market Information sheet
WORCESTER - BROMWICH ROAD (STW)	Both STW and STC are shown on site list. Figure included in STC data so removed from STW data
WORKSOP-MANTON (STW)	Both STW and STC are shown on site list. Figure included in STC data so removed from STW data
Barston STC, Solihull	Both STW and STC are shown on site list. Figure included in STW. Site no longer a STC
Coalport STC	Out of Scope for Published Market Information as not collected from a Network + location. Raw Cake
Four Ashes STC, Cannock	Out of Scope for Published Market Information as not collected from a Network + location. Liquid Digested Sludge
Hinckley STC	Out of Scope for Published Market Information as not collected from a Network + location. Liquid Digested Sludge
Melton STC	Out of Scope for Published Market Information as not collected from a Network + location. Liquid Digested Sludge

Monkmoor STC, Shrewsbury	Out of Scope for Published Market Information as not collected from a Network + location. Liquid Digested Sludge
Rugby STC	Out of Scope for Published Market Information as not collected from a Network + location. Liquid Digested Sludge
Stanley Downton STC, Stroud	Out of Scope for Published Market Information as not collected from a Network + location. Liquid Digested Sludge

There are 48 sites without Transport associated to them. All these are small PE sites and are likely to be included in other transport movements. The sites are

BEDLAM (STW)	EDALE - ORCHARD FARM (STW)	HULLAND WARD (STW)	SNOWDON LODGE (STW)
BEEBY - BARKBY ROAD-RBC (STW)	EDALE - SPRINGHILL FARM (STW)	KENWICK PARK (STW)	TEDSTONE WAFRE (STW)
BETTON BYEWAYS (STW)	EDALE MILL COTTAGE (STW)	LEDDINGTON (STW)	TICKLERTON (STW)
BRADBOURNE-BRACKENDALE LANE (STW)	EDINGALE (STW)	LOXLEY GREEN-LOXLEY LANE (STW)	WATERS UPTON - SYTCH LANE (STW)
BURCOTT (STW)	ERCALL HEATH (STW)	MARKHAM CLINTON (STW)	WELSHAMPTON - BALMER CRESCENT (STW)
CLIFFORDS MESNE (STW)	FISHERIES - PRIDDOCK HOUSE (STW)	MILLDALE (STW)	WESTON - GUINEA LANE (STW)

EDALE - DALE HEAD FARM (STW)	HIMLEY HALL (STW)	RANTON - BROOK LANE (STW)	WILDSWORTH - CARR LANE (STW)

3. Total Capacity

We have calculated the total capacity at our sludge treatment centres with digesters in the same way as we did for the 2017 RCV submission. Digester capacity is calculated using 80% effective digester capacity, a retention time of 15 days and the actual % dry solids digester feed for 2019/20.

For THPs and dewatering sites, average throughput has been used.

The submission sheet does not distinguish between sludge treatment and dewatering centres.

Where we know that our treatment capacity will change, this is reflected in the table. Our AMP8 plans are still under development so the total capacity in 2025/26 – 2029/30 is subject to change.

We have not included Barston, Etwall Farm and Four Ashes on the submission sheet – these are no longer sludge treatment centres. We have not included Buxton because it is not a dewatering site or sludge treatment centre.

4. Tradeable Capacity

We have stated that 5,000tds/annum is available at Stoke Bardolph, Strongford and Wanlip (total 15,000tds/annum) from year 3 of AMP 7. This is subject to the THPs at Stoke Bardolph and Finham being fully commissioned.

Trading is subject to suitable gate fees being agreed. Sludge production estimates are less certain in AMP 8 (due to population changes and ongoing development of the AMP 8 Q programme) so our ability to trade is under regular review.

5. Headroom Capacity

We have stated our headroom capacity as “floating”. This is because we treat sludge at the most economic site and this will change over time.
