### Introduction from David Black, interim Chief Executive

Water companies support all aspects of life. Safe and reliable water and wastewater services are essential for our day to day lives, our wellbeing, and our natural world.

And as the economic regulator of water and waste water in England and Wales, our role is to enable, incentivise and hold companies to account for providing the very best for customers, society and the environment now and in the future. We also oversee the markets that exist in the water sector to make sure they are working for customers.

To achieve this, we've set ourselves three goals. They are to:

- transform water companies' performance;
- drive water companies to meet long-term challenges through increased collaboration and partnerships; and
- for water companies to provide greater public value, delivering more for customers, society and the environment.

Delivering these goals will help to meet customers' needs: ensure reliable and safe water supplies today with a better environment, affordable bills and a resilient and sustainable future for water.

As we do this, we will be working to fulfil the UK and Welsh Governments' strategic priorities for Ofwat, and UK and Welsh Government policy.

We're ambitious about the future and looking for people who can help us to achieve our goals. Thanks for your interest in joining Ofwat. We look forward to receiving your application.

**David Black**  
interim Chief Executive

## About Ofwat and the role

Ofwat (the Water Services Regulation Authority) is the economic regulator of the water and wastewater sector in England and Wales. Our role is to help it build trust and confidence with customers, the environment and wider society. Ofwat has an ambitious new [strategy](#) and as a regulator we are setting ourselves up to achieve and equal the ambition of this new strategy. It matters to us that things on the ground really change so that our impact on customers, the environment and the future of water is tangible and meaningful.

Our work is high-profile and fast-moving, within a dynamic and agile environment. The work that you'll be involved in every day will be about helping us to deliver our strategy, helping to us to be the regulator we want to be and helping the sector to deliver outcomes that matter to customers and society. Our strategy sets out the role Ofwat will play. We will adapt, be confident, act with purpose and integrity and continuously improve so that we make the greatest contribution possible to improving life through water.

## Role expectations

This role will lead the Environment work stream. This is a wide-ranging regulatory policy role where you will be responsible for encouraging and incentivising companies to work in the long-term interest of society and the environment, helping to meet Ofwat's ambition to deliver greater public value in the sector. The role will also involve supporting the governance structures necessary to deliver on the sector's environmental ambition and may involve a broader leadership role in our board leadership, transparency and governance work.

This role is at the heart of our Policy and Outcomes cluster, which aims to implement Ofwat's strategy 'time to act, together'. The cluster will deliver the best outcomes for customers, society and the environment by developing and implementing regulatory policy through a variety of tools and relationships. The role works with all other relevant parts of Ofwat, and is very closely linked in with the Company Performance and Price Review cluster which includes Ofwat's work in preparing for the next periodic price review PR24.

## Key deliverables

This role will be responsible for:

- Continuing to develop and implement Ofwat's role in protecting and improving the environment. You will lead our programme of environmental work, alongside other regulators and UK and Welsh Governments. This will include ensuring future environmental investment programmes and plans for the water sector bring forward the greatest strategic benefits; strengthening the water sector's approach to climate change mitigation and adaptation, including designing regulatory policy and approach

for industry net zero commitments; promoting, facilitating and incentivising partnership working, catchment management and nature-based solutions; overseeing Ofwat's work on targeted areas such as storm overflows and protecting precious habitats such as chalkstreams; helping to ensure that the PR24 price review supports the efficient and effective delivery of environmental protection and improvements and embeds a public value approach; and engaging strategically with relevant stakeholders and ensuring Ofwat communicates consistently, clearly and with impact on environmental issues.

- Embedding the concept of public value in line with Ofwat's recent work in this area. With their clear geographical and environmental footprint, water companies are ideally placed to provide wider benefits to society in carrying out their core functions.
- Driving and supporting robust governance practices in the delivery of environmental and potentially wider outcomes, in particular to motivate and support companies, in their internal structures and policies, in addressing environmental issues and challenges. You may also take a broader leadership role in Ofwat's ongoing work on the board leadership, transparency and governance of regulated water companies.

For this role you will be a thought leader in public and regulatory policy with a strong delivery focus and ability to drive tangible progress in areas where thinking is still evolving. You will have a range of policy and regulatory expertise that you can deploy across the organisation with flexibility. You will be able to manage a wide portfolio of activities leading a diverse team of specialists and generalists with high degree of autonomy. You will be comfortable with adapting to changing priorities in a fast-paced environment and be comfortable with nature of the role and focus evolving over time. It will be desirable for you to have strong knowledge of environmental policy thinking and an understanding of how to promote good governance in that context in particular. You will need strong communication skills, a proven ability to engage with stakeholders in the public and private sectors and to work collaboratively across organisational boundaries.

## Terms and conditions of employment

### Contract

This is a permanent appointment.

### Salary

The salary range for Band 5 is £78,971 – £118,457. For this position external candidates can expect to achieve a starting salary from the bottom of the band depending on relevant skills and experience required for the post. Salary is paid monthly by credit transfer.

Internal and Civil Service candidates already at this job level would normally maintain their existing salary arrangements as this would be classed as a level transfer. If applying for the role as a promotion, these candidates can typically expect to be appointed on a salary at the bottom of the band or a 10% increase to existing salary, whichever is greater.

### Location

The role will be based in either Birmingham or London, with travel between offices and occasional other travel as required. However, the majority of employees are currently working from home in line with the government's advice, due to the Covid-19 pandemic.

Any person who regularly works more than two days a month in both the Birmingham and London offices, irrespective of their contracted place of work, is considered by HMRC to have two permanent workplaces.

The payment of your rail fare, accommodation or subsistence in this situation attracts tax and National Insurance because you are receiving a benefit.

Ofwat meets the cost of the tax and National Insurance by grossing up your expenses and recovering the net amount through your monthly pay package. But the expenses are classed as taxable earnings, which could impact on any attachment of earnings – for example, student loan repayments, high income child benefit and state benefits.

This means that you will not be required to meet the costs of travel to the office location where you are not based.

For further information on taxable expenses, please email [payroll@ofwat.gov.uk](mailto:payroll@ofwat.gov.uk).
