

Dear Sir

I wish to register against the proposal. It is not a suitable location and it is not a suitable design for the area. The area already has severe congestion and a 10 year build programme would bring the whole area to a gridlock. The impact would be devastating for the local community and the environment. It would not be for the benefit of the community but for private shareholders and to be a holding tank to sell to other water companies. It is a disgrace.

We don't want it. Don't build it.
