Subject: Havant Thicket Reservoir

Dear sir/Madam

I was very concerned on hearing about using the reservoir as part of the effluent recycling process .
I feel that not enough information has been given to the public, concerning exactly what is involved, when and how decisions would be made, and what restrictions would be in place.
No mention of such a scheme was put forward when planning permission was applied for.
The very poor history of water treatment in this area gives me no confidence in Southern Water's ability to deal with effluent and the idea that Havant Thicket Reservoir could be dragged into the process fills me with horror. A disaster waiting to happen.

Yours sincerely
[redacted]
