Variation of Independent Water Networks Limited's appointment to include Slough Road, Brantham

Variation of Independent Water Networks Limited's appointment to include Slough Road, Brantham

On 25 April 2022, Ofwat began a [consultation](#) on a proposal to vary Independent Water Networks Limited (“**Independent Water Networks**”) appointment to become the water services provider for a development in Anglian Water Services Limited (“**Anglian Water**”) water supply area called Slough Road, Brantham (“**the Site**”). Details of the application and our assessment of it were set out in the consultation document.

During the consultation period, we received representations from three organisations, which are summarised in Section 1 of this document.

We will only make an appointment or variation if our assessment concludes that the application meets the criterion it has been made under; that customers or future customers on the site will be no worse off than if the site had been served by the existing appointee; and if the applicant will be able to finance the proper carrying out of its functions as a water and/or sewerage company. As set out in our consultation we are satisfied this is the case. The responses we have received to the consultation have not changed that view.

Having assessed Independent Water Networks' application and having taken account of the responses we received to our consultation, we decided to grant a variation to Independent Water Networks' area of appointment to allow it to serve the Site for water services. This appointment became effective on 27 May 2022.

The Site map(s) for the variation can be found in Section 2 of this document.

The Variation Notice legally making the variation can be found in Section 3 of this document.

1. Responses received to the consultation

We received responses to our consultation from three organisations: the Consumer Council for Water (“**CCW**”), Drinking Water Inspectorate (“**DWI**”) and Environment Agency. We considered these responses before making the decision to vary 's appointment.

The Environment Agency and DWI had no comments to make with regard to this consultation and did not have any objections. Details of CCW's response are set out below.

CCW response

In general, CCW expects that new appointments and variations (“NAV”) should bring benefits to customers on the proposed NAV site, such as matching or improving the pricing, levels of service or service guarantees. This is particularly true for developments that include domestic housing, as household customers cannot choose or switch supplier.

CCW is disappointed that there is no formal financial benefit to customers from having Independent Water Networks as their provider of water services, as Independent Water Networks intends to match the charges of Anglian Water. However, CCW acknowledges that Independent Water Networks currently offers a discount of 2.5% against Anglian Water's charges and generally matches or exceeds the service standards of Anglian Water. CCW therefore overall supports the application as customers will be no worse off in terms of the level of service they will receive or the price they will pay.

CCW notes that due to the relatively small size of its customer base, Independent Water Networks does not currently offer a social tariff to financially vulnerable customers in the way Anglian Water does, but it will offer the standard WaterSure tariff for qualifying customers. CCW states that until Independent Water Networks can provide a formal social tariff, it is appropriate for it to tailor some of the services that it provides. CCW sets out its expectation that Independent Water Networks would offer appropriate, flexible support to any customer in financial difficulty who would otherwise have benefitted from a social tariff and that this should not be at the expense of its other customers. CCW notes that by matching Anglian Water charges Independent Water Networks already benefits from the cross-subsidy that Anglian Water's customers pay to support its social tariff.

CCW notes our conclusion that, as a result of the variation, Anglian Water's existing customers would see no increase in their annual water bills. However, it notes that it is unclear whether there will be any significant benefits to the existing customers of Anglian Water and questions the value of the NAV regime if it cannot deliver benefits to all customers.

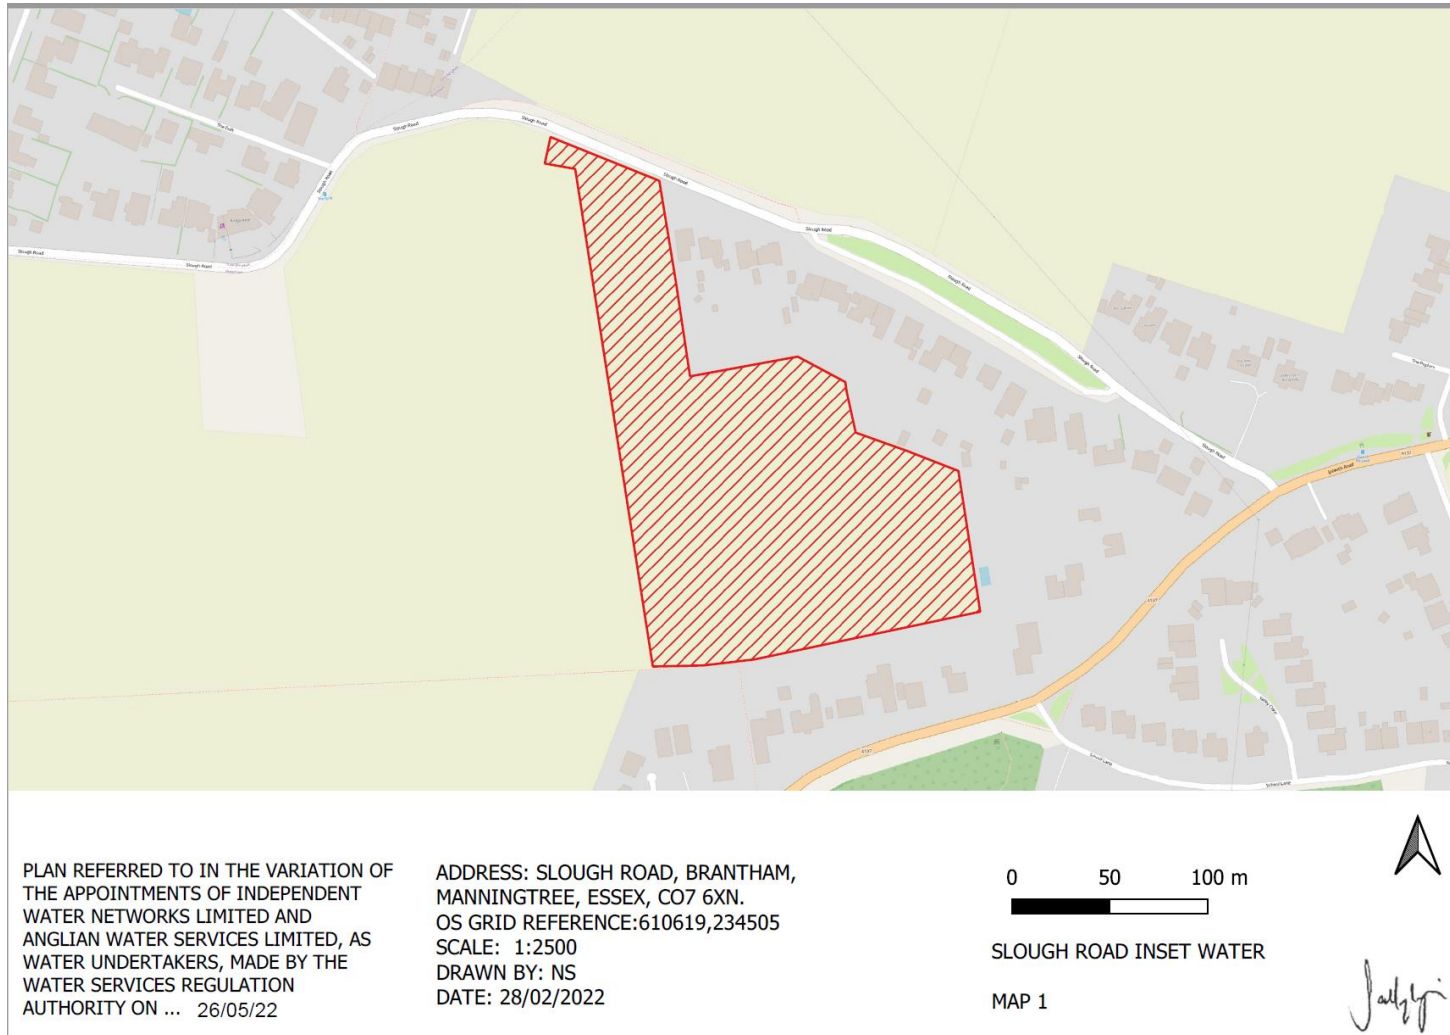

Our response

One of our key policies is that customers should be no worse off if a NAV is granted. That is, an applicant must ensure its new customers are made no worse off in terms of charges and

service than if they had been supplied by the previous appointee. We do not require applicants to better the service and price of previous incumbents.

Vulnerable customers may not be aware of the social tariff that would be available to them if they were served by the incumbent rather than by the applicant. It is the responsibility of Independent Water Networks to identify and protect vulnerable customers on the Site. Although the applicant does not offer a social tariff, it should ensure customers will be no worse off.

3. Variation Notice

WATER SERVICES REGULATION AUTHORITY
WATER INDUSTRY ACT 1991, SECTIONS 6 TO 9

Variation of the Appointments of Independent Water Networks Limited and Anglian Water Services Limited as Water Undertakers

Made on 26 May 2022

Coming into effect on 27 May 2022

1. Independent Water Networks Limited ("Independent Water Networks") and Anglian Water Services Limited ("Anglian Water") hold Appointments as water undertakers for their respective areas ("the Appointments").¹ The areas to which the Appointments of Independent Water Networks and Anglian Water as water undertakers relate ("Water Supply Area") are set out in their Instruments of Appointment.
2. The site called Slough Road, Brantham, which is shown edged in red on the plan attached to this variation, ("the Site") is within Anglian Water's Water Supply Area. The Site is being developed by Matthew Homes Limited.
3. Independent Water Networks has applied under section 7(4)(b) of the Water Industry Act 1991 ("the Act") for a variation of its Appointment as a water undertaker to include the Site and for a consequential variation of Anglian Water's Appointment to exclude the Site.
4. On 27 June 1995, the Secretary of State for the Environment and the Secretary of State for Wales acting jointly and pursuant to sections 6(1) and 7(2) of the Act authorised the Director General of Water Services² to make variations such as those contained in paragraph 5 below. After public consultation, as required by section 8 of the Act, the Water Services Regulation Authority has decided that it should grant Independent Water Networks' application.
5. Therefore, as provided by sections 7(2) and 7(4)(b) of the Act, and with the agreement of Matthew Homes Limited, the Water Services Regulation Authority **varies**—

(a) the Appointment of Independent Water Networks as a water undertaker so that the Site is included in Independent Water Networks' Water Supply Area; and

¹ Anglian Water's original Appointments as water and sewerage undertakers were made by the Secretary of State for the Environment under sections 11 and 14 of the Water Act 1989, now replaced by sections 6 and 11 of the Water Industry Act 1991. Independent Water Networks' original Appointment was made by the Water Services Regulation Authority under sections 6 and 11 of the Water Industry Act 1991.

² With effect from 1 April 2006 the functions of the Director General of Water Services were transferred to the Water Services Regulation Authority in accordance with section 36 of, and Schedule 3 to, the Water Act 2003.

(b) the Appointment of Anglian Water as a water undertaker so that the Site is excluded from Anglian Water's Water Supply Area.

Signed for and on behalf of the Water Services Regulation Authority

Sally Irgin
Director of Enforcement
