

Variation of Independent Water Network Limited's appointment to include Bell Road, Bottisham

On 21 June 2022, Ofwat began a [consultation](#) on a proposal to vary Independent Water Networks Limited's ("Independent Water Networks") appointment to become the water and sewerage services provider for a development in Anglian Water Services Limited's ("Anglian Water") water supply area and sewerage services area called Bell Road, Bottisham ("the Site"). Details of the application and our assessment of it were set out in the consultation document.

The consultation ended on 19 July 2022. During the consultation period, we received representations from one organisation, which is summarised in Section 1 of this document.

We will only make an appointment or variation if our assessment concludes that the application meets the criterion it has been made under; that customers or future customers on the site will be no worse off than if the site had been served by the existing appointee; and if the applicant will be able to finance the proper carrying out of its functions as a water and sewerage company. As set out in our consultation we are satisfied this is the case. The responses we have received to the consultation have not changed that view.

Having assessed Independent Water Networks' application and having taken account of the responses we received to our consultation, we decided to grant a variation to Independent Water Networks' area of appointment to allow it to serve the site for water and sewerage services. This appointment became effective on 6 October 2022.

The Site Maps for the variation can be found in Section 2 of this document.

The Variation Notice legally making the variation can be found in Section 3 of this document.

1. Responses received to the consultation

We received one response to our consultation from the Environment Agency. We considered this response before making the decision to vary Independent Water Networks' appointment.

The Environment Agency advised that it did not have any objections to the proposed variation and noted that Bottisham Wastewater Recycling Centre (WRC) appears to have sufficient capacity to be able to accommodate flows from the new development. However, it had comments for Independent Water Networks to note. It stated it is the applicant's responsibility to discuss sewerage capacity with the wastewater incumbent, highlighting that if the receiving WRC has insufficient capacity to treat additional flows from this proposed development, then the water company must make plans to accommodate these additional flows without risking a permit breach or risk to the environment. These comments were forwarded to Independent Water Networks to note.

The Consumer Council for Water ("**CCW**") no longer responds to individual consultations but has set out its statement of position as detailed below.

CCW

As part of the application process Ofwat has engaged with CCW. CCW's position is that new appointments and variations ("**NAVs**") should bring benefits to customers on the proposed NAV site. CCW expects NAV appointees to provide consumers with prices, levels of service or service guarantees that match or, ideally, better those of incumbent water and/or sewerage companies. CCW has stated that it is satisfied that Independent Water Networks as an established NAV appointee, offers customers on its NAV sites prices and levels of service which match or better those offered by the incumbent water and/or sewerage companies which would otherwise serve the site. CCW therefore agrees with Ofwat's assessment that customers on the Site will be no worse off if served by Independent Water Networks and so, overall, supports the proposed variation of appointment.

CCW recognises that due to the small size of Independent Water Network's customer base, it does not currently offer its financial vulnerable customers a social tariff in the way that the incumbent companies do but does offer the standard WaterSure tariff for qualifying customers. CCW considers that it is appropriate for Independent Water Networks to tailor the services it provides, until it can offer a formal social tariff, ensuring customers are provided with appropriate flexible support where needed.

CCW has also considered the impact on an incumbent's existing customers when a NAV site is approved. It notes that in many cases there is a potential cost on the annual water and/or sewerage bills of these customers. While this cost is negligible on an individual site basis, CCW is unclear of the wider benefits of the NAV regime for incumbents' customers,

particularly as the number of sites in each incumbent area increases and the cumulative cost rises.

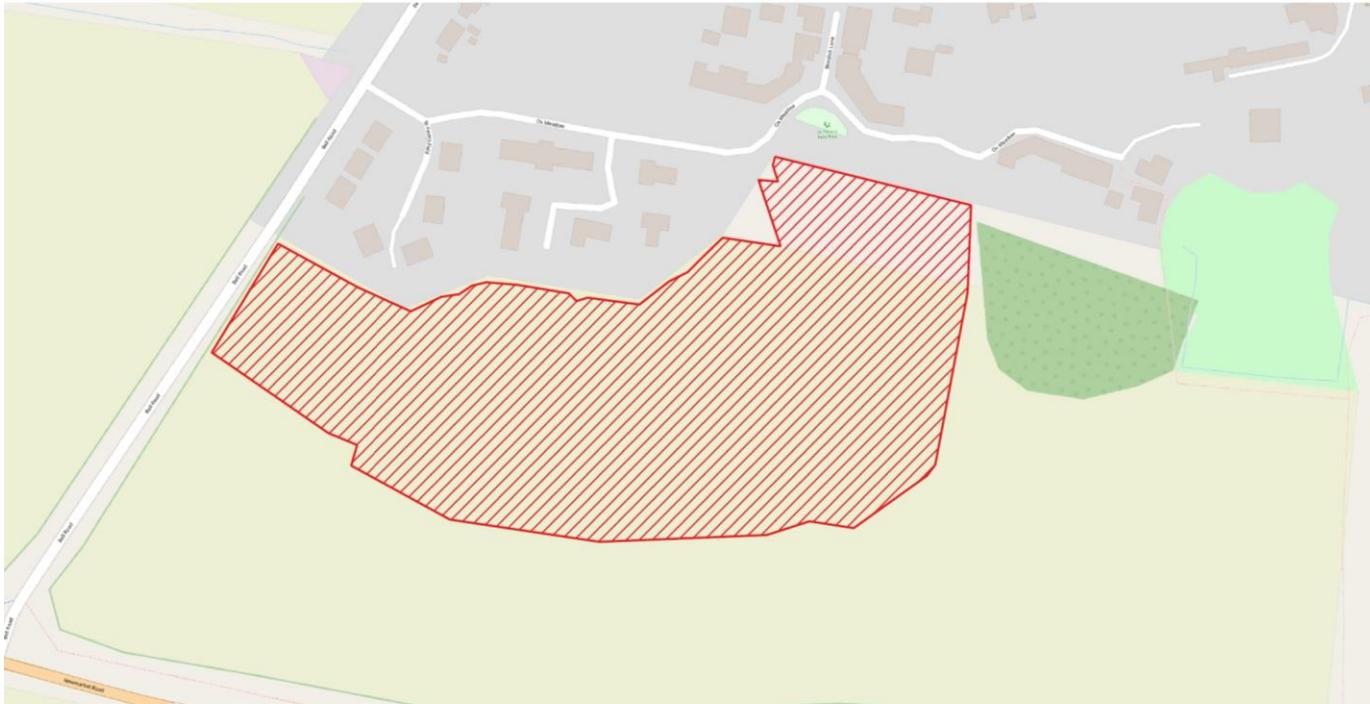

Our response to CCW

One of our key policies with considering NAV applications is that customers should be no worse off if a NAV is granted. That is, an applicant must ensure its new customers are made no worse off in terms of charges and service than if they had been supplied by the previous appointee. We do not require applicants to better the service and price of previous incumbents.

Vulnerable customers may not be aware of the social tariff that would be available to them if they were served by the incumbent rather than by the applicant. It is the responsibility of the applicant to identify and protect vulnerable customers on the Site. Although the applicant does not offer a social tariff, it should ensure customers will be no worse off.

3. Variation Notice

WATER SERVICES REGULATION AUTHORITY

WATER INDUSTRY ACT 1991, SECTIONS 6 TO 9

Variation of the Appointments of Independent Water Networks Limited and Anglian Water Services Limited as Water and Sewerage Undertakers

Made on 5 October 2022

Coming into effect on 6 October 2022

1. Independent Water Networks Limited ("Independent Water Networks") and Anglian Water Services Limited ("Anglian Water") hold Appointments as water and sewerage undertakers for their respective areas ("the Appointments").¹ The areas to which the Appointments of Independent Water Networks and Anglian Water as the water and sewerage undertakers relate ("Water Supply Area" and "Sewerage Services Area") are set out in their Instruments of Appointment.
2. The site called Bell Road, Bottisham, in Cambridgeshire, which is shown edged in red on the plan attached to this variation, ("the Site") is within Anglian Water's Water Supply Area and Sewerage Services Area. The Site is being developed by Accent Homemade Limited.
3. Independent Water Networks has applied under section 7(4)(b) of the Water Industry Act 1991 ("the Act") for a variation of its Appointment as a water and sewerage undertaker to include the Site and for a consequential variation of Anglian Water's Appointments to exclude the Site.
4. On 27 June 1995, the Secretary of State for the Environment and the Secretary of State for Wales acting jointly and pursuant to sections 6(1) and 7(2) of the Act authorised the Director General of Water Services² to make variations such as those contained in paragraph 5 below. After public consultation, as required by section 8 of the Act, the Water Services Regulation Authority has decided that it should grant Independent Water Networks' application.

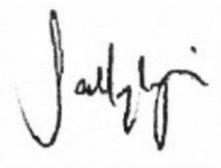

¹ Anglian Water's original Appointment as a water and sewerage undertaker was made by the Secretary of State for the Environment under sections 11 and 14 of the Water Act 1989, now replaced by sections 6 and 11 of the Water Industry Act 1991. Independent Water Networks' original appointment was made by the Water Services Regulation Authority under sections 6 and 11 of the Water Industry Act 1991.

² With effect from 1 April 2006 the functions of the Director General of Water Services were transferred to the Water Services Regulation Authority in accordance with section 36 of, and Schedule 3 to, the Water Act 2003.

Variation of Independent Water Network Limited's appointment to include the Site, Bell Road,
Bottisham

5. Therefore, as provided by sections 7(2) and 7(4)(b) of the Act, and with the agreement of Accent Homemade Limited, the Water Services Regulation Authority **varies**–
- (a) the Appointment of Independent Water Networks as a water and sewerage undertaker so that the Site is included in Independent Water Networks' Water Supply Area and Sewerage Services Area; and
 - (b) the Appointment of Anglian Water as a water and sewerage undertaker so that the Site is excluded from Anglian Water's Water Supply Area and Sewerage Services Area.

Signed for and on behalf of the Water Services Regulation Authority
