

Variation of Independent Water Networks Limited's appointment to include Alfreton Road, Pinxton, Nottingham

On 22 December 2022, Ofwat began a [consultation](#) on a proposal to vary Independent Water Networks Limited's ("**Independent Water Networks**") appointment to become the water services provider for a development in Severn Trent Water Limited's ("**Severn Trent Water**") water supply area called Alfreton Road, Pinxton, Nottingham ("**the Site**"). Details of the application and our assessment of it were set out in the consultation document.

The consultation ended on 20 January 2023. During the consultation period, we did not receive any representations in response to the proposed variation. On 22 November 2022 Independent Water Networks notified us that it had provided an incorrect boundary map with its application to us; it confirmed that the other aspects of its application were unchanged, including the number of properties to be served on the Site, we used the incorrect map in our public consultation. Other aspects of our assessment of the application remain unchanged. When this error was identified we updated the statutory consultees with the correct boundary map and provided them with a further period to make representations from 17 February 2023 to 24 February 2023. We did not receive any representations in response to this.

We will only make an appointment or variation if our assessment concludes that the application meets the criterion it has been made under; that customers or future customers on the site will be no worse off than if the site had been served by the existing appointee; and if the applicant will be able to finance the proper carrying out of its functions as a water company. As set out in our consultation we are satisfied this is the case.

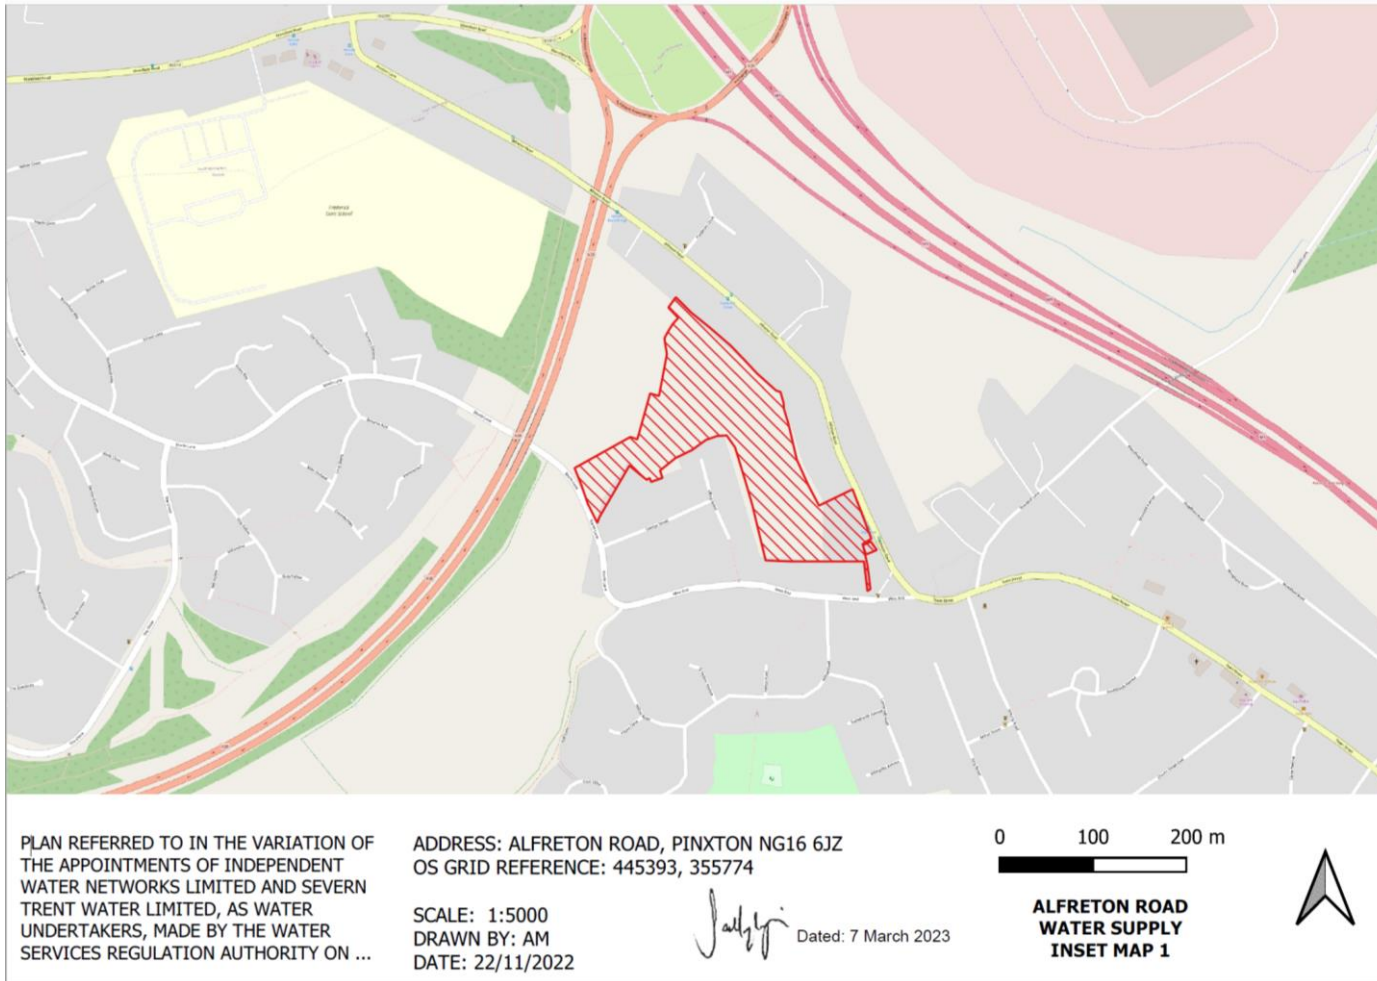

Having assessed Independent Water Networks' application and having received no responses to our consultation, we decided to grant a variation to Independent Water Networks' area of appointment to allow it to serve the Site for water services. This appointment became effective on 7 March 2023.

The Site Map for the variation can be found in Section 1 of this document.

The Variation Notice legally making the variation can be found in Section 2 of this document.
