

## Variation of Leep Networks (Water) Limited's appointment to include Derwent Street, Manchester

On 28 November 2022 Ofwat began a [consultation](#) on a proposal to vary Leep Networks (Water) Limited's ("**Leep Water**") appointment to become the water and sewerage services provider for a development in United Utilities Water Limited's ("**United Utilities**") water supply and sewerage services area called Derwent Street, Manchester ("**the Site**"). Details of the application and our assessment of it were set out in the consultation document.

The consultation ended on 30 December 2022. During the consultation period, we did not receive any representations.

We will only make an appointment or variation if our assessment concludes that the application meets the criterion it has been made under; that customers or future customers on the site will be no worse off than if the site had been served by the existing appointee; and if the applicant will be able to finance the proper carrying out of its functions as a water and/or sewerage company. As set out in our consultation we are satisfied this is the case. As we received no responses to the consultation, our view has not changed.

Having assessed Leep Water's application and having received no responses to our consultation, we decided to grant a variation to Leep Water's area of appointment to allow it to serve the site for water and sewerage services. This appointment became effective on 28 March 2023.

The Site maps for the variation can be found in Section 1 of this document.

The Variation Notice legally making the variation can be found in Section 2 of this document.
