

Variation of Independent Water Networks Limited's appointment to include Main Street, Wakefield

On 9 August 2022, Ofwat began a [consultation](#) on a proposal to vary Independent Water Networks Limited's ("Independent Water Networks") appointment to become the water and sewerage services provider for a development in Yorkshire Water Services Limited's ("Yorkshire Water") water supply and sewerage services area called Main Street, Wakefield ("the Site"). Details of the application and our assessment of it were set out in the consultation document.

The consultation ended on 6 September 2022. During the consultation period, we received a representation from one organisation, the Environment Agency, which confirmed that it did not have any comments on or objections to the proposed variation.

On 3 March 2023, Independent Water Networks notified us of a boundary change to the Site, to remove a small section of the area. There are no other changes to the application and no effect on our overall assessment of the application. As the consultation had already ended, on 13 March 2023, we wrote to the statutory consultees to notify them of the change and gave a further week for any comments. No further representations were received.

We will only make an appointment or variation if our assessment concludes that the application meets the criterion it has been made under; that customers or future customers on the site will be no worse off than if the site had been served by the existing appointee; and if the applicant will be able to finance the proper carrying out of its functions as a water and sewerage company. As set out in our consultation we are satisfied this is the case. The response we have received to the consultation has not changed that view.

Having assessed Independent Water Networks' application and having taken account of the response we received to our consultation, we decided to grant a variation to Independent Water Networks' area of appointment to allow it to serve the Site for water and sewerage services. This appointment became effective on 6 April 2023.

The Site Maps for the variation can be found in Section 2 of this document.

The Variation Notice legally making the variation can be found in Section 3 of this document.
