

## Variation of Independent Water Networks Limited's appointment to include Royal Enfield Chase, Enfield

On 22 August 2022, Ofwat began a [consultation](#) on a proposal to vary Independent Water Networks Limited's (“**Independent Water Networks**”) appointment to become the water provider for a development in Thames Water Utilities Limited's (“**Thames Water**”) water supply area called Royal Enfield Chase, Enfield (“**the Site**”). Details of the application and our assessment of it were set out in the consultation document.

The consultation ended on 20 September 2022. During the consultation period, we received a representation from one organisation, which is summarised in Section 1 of this document.

We will only make an appointment or variation if our assessment concludes that the application meets the criterion it has been made under; that customers or future customers on the site will be no worse off than if the site had been served by the existing appointee; and if the applicant will be able to finance the proper carrying out of its functions as a water and/or sewerage company. As set out in our consultation we are satisfied this is the case. The response we have received to the consultation has not changed that view.

Having assessed Independent Water Networks Limited's application and having taken account of the response we received to our consultation, we decided to grant a variation to Independent Water Networks' area of appointment to allow it to serve the site for water services. This appointment became effective on 6 April 2022.

The Site map for the variation can be found in Section 2 of this document.

The Variation Notice legally making the variation can be found in Section 3 of this document.
