

Variation of Leep Networks (Water) Ltd's appointment to include Broomhall Way, Worcester

On 12 October 2022, Ofwat began a [consultation](#) on a proposal to vary Leep Networks (Water) Limited's ("**Leep Water**") appointment to become the water and sewerage services provider for a development in Severn Trent Water Limited's ("**Severn Trent Water**") water supply area and sewerage services area called Broomhall Way, Worcester ("**the Site**"). Details of the application and our assessment of it were set out in the consultation document.

The consultation ended on 9 November 2022. During the consultation period, we received representation from one organisation, the Environment Agency. The Environment Agency advised that it has no comments on, or objections to the consultation.

We will only make an appointment or variation if our assessment concludes that the application meets the criterion it has been made under; that customers or future customers on the Site will be no worse off than if the Site had been served by the existing appointee; and if the applicant will be able to finance the proper carrying out of its functions as a water and/or sewerage company. As set out in our consultation we are satisfied this is the case. The response we have received to the consultation have not changed that view.

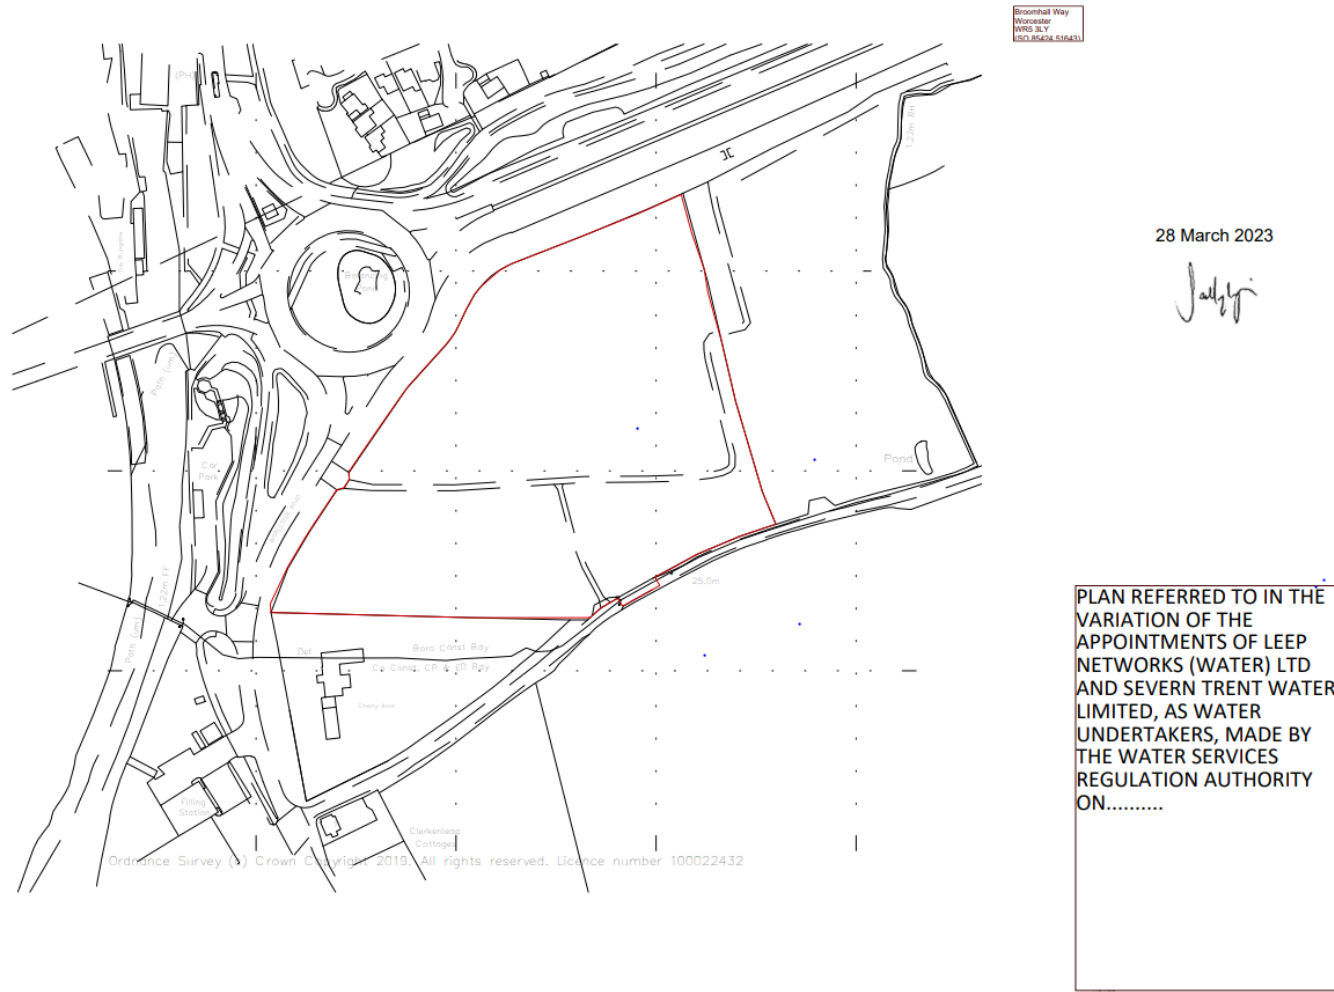

Having assessed Leep Water's application and having taken account of the response we received to our consultation, we decided to grant a variation to Leep Water's area of appointment to allow it to serve the Site for water and sewerage services. This appointment became effective on 29 March 2023.

The Site Map for the variation can be found in Section 1 of this document.

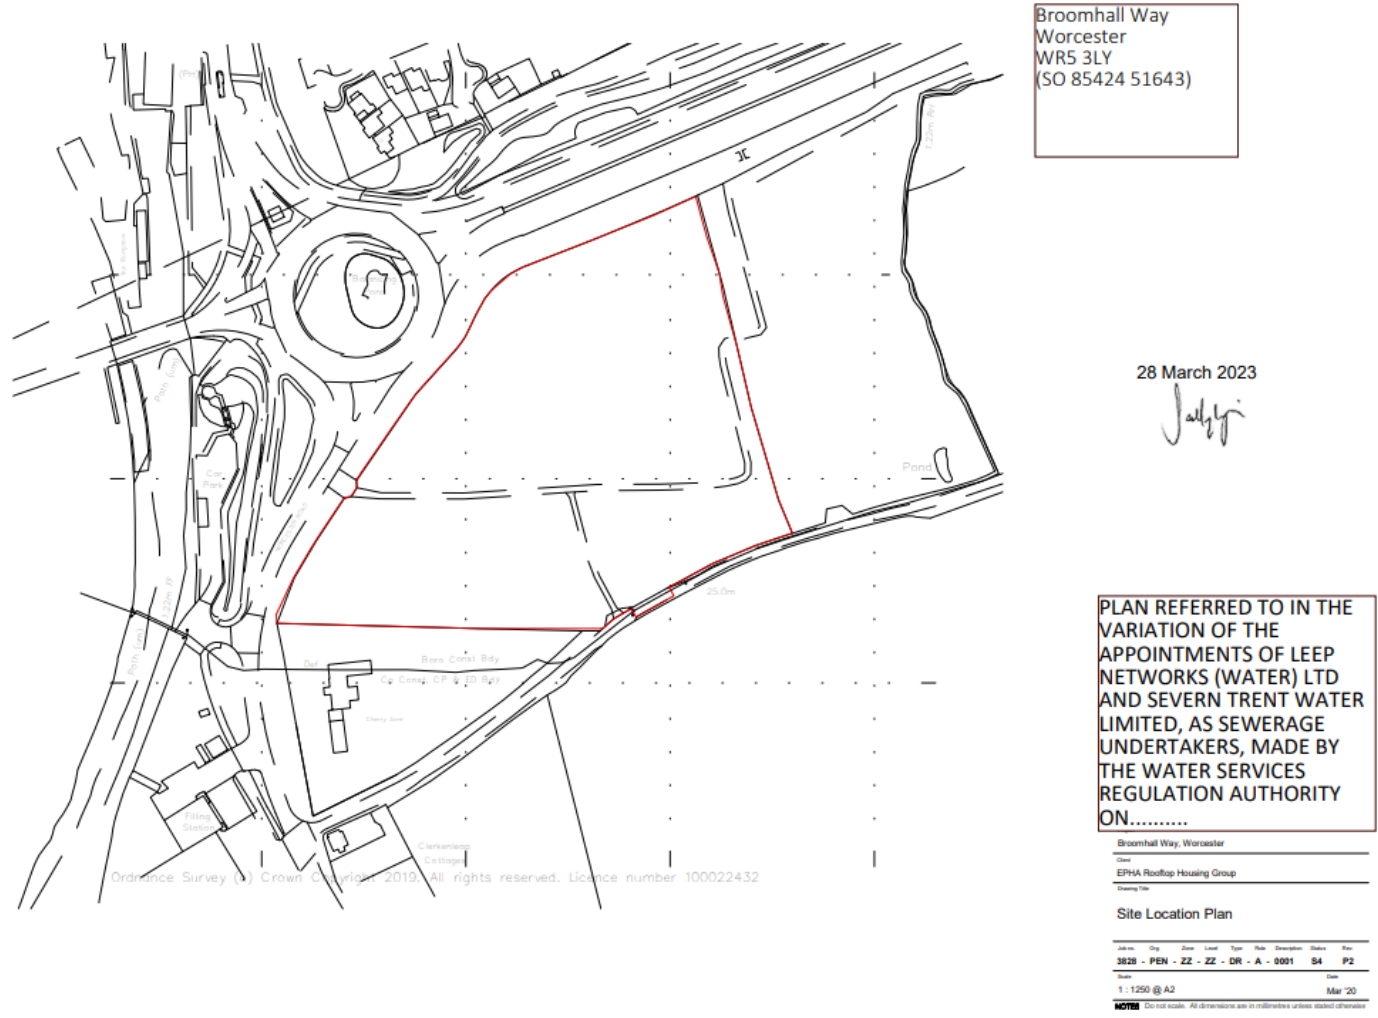

The Variation Notice legally making the variation can be found in Section 2 of this document.
