CCW response to the Ofwat Customer Protection Code of Practice Call for Inputs

As a member owned not-for-profit organisation, TEC (The Energy Consortium) has been working with CCW with regards to the change submission being put forward in relation to the CPCoP. TEC fully support all changes that have been put forward and believe they will have a substantial benefit to not just TEC members but all business customers.

TEC are happy to provide live examples of where these changes will help benefit the end customer.

Kind Regards,

Water Specialist
