

Variation of Independent Water Networks' appointment to include Little Shepham, Polegate

On 1 August 2022, Ofwat began a [consultation](#) on a proposal to vary Independent Water Network Limited's ("**Independent Water Networks**") appointment to become the water and sewerage services provider for a development in South East Water Limited's ("**South East Water**") water supply area and Southern Water Services Limited's ("**Southern Water**") sewerage services area called Little Shepham, Polegate, East Sussex ("**the Site**"). Details of the application and our assessment of it is set out in the consultation document.

The consultation ended on 29 August 2022. During the consultation period, we received a representation from one organisation, the Environment Agency. The Environment Agency stated that it had no comments to make with regard to this consultation and did not have any objections.

We will only make an appointment or variation if our assessment concludes that the application meets the criterion it has been made under; that customers or future customers on the site will be no worse off than if the site had been served by the existing appointee; and if the applicant will be able to finance the proper carrying out of its functions as a water and sewerage company. As set out in our consultation we are satisfied this is the case. The response we received to the consultation has not changed that view.

Having assessed Independent Water Networks' application and having taken account of the response we received to our consultation, we decided to grant a variation to Independent Water Networks' area of appointment to allow it to serve the Site for water and sewerage services. This appointment became effective on 20 June 2023.

The Site Maps for the variation can be found in Section 1 of this document.

The Variation Notice legally making the variation can be found in Section 2 of this document.
