

## Variation of Independent Water Networks Limited's appointment to include Roman Way, Halesworth

On 12 September 2022, Ofwat began a [consultation](#) on a proposal to vary Independent Water Networks Limited's ("Independent Water Networks") appointment to become the water and sewerage services provider for a development in Northumbrian Water Limited's ("Northumbrian Water") water supply area and Anglian Water Services Limited's ("Anglian Water") sewerage services area called Roman Way, Halesworth in Suffolk ("the Site"). Details of the application and our assessment of it were set out in the consultation document.

The consultation ended on 11 October 2022. During the consultation period, we did not receive any representations from any organisations. Due to the length of time that has passed since the end of the consultation period, we requested updated confirmation that the Site remained unserved. We have received evidence that this remains the case.

We will only make an appointment or variation if our assessment concludes that the application meets the criterion it has been made under; that customers or future customers on the site will be no worse off than if the site had been served by the existing appointee; and if the applicant will be able to finance the proper carrying out of its functions as a water and/or sewerage company. As set out in our consultation we are satisfied this is the case.

Having assessed Independent Water Networks' application and having taken account of the responses we received to our consultation, we decided to grant a variation to Independent Water Networks' area of appointment to allow it to serve the Site for water and sewerage services. This appointment became effective on 11 July 2023.

The Site Maps for the variation can be found in Section 1 of this document.

The Variation Notice legally making the variation can be found in Section 2 of this document.
