

## Variation of Independent Water Networks Limited's appointment to include Sandpit Road (Phase 2), Peterborough

On 21 June 2023, Ofwat began a [consultation](#) on a proposal to vary Independent Water Networks Limited's ("**Independent Water Networks**") appointment to become the water and sewerage services provider for a development in Anglian Water Services Limited's ("**Anglian Water**") water supply and sewerage services area called Sandpit Road (Phase 2), Thorney, Peterborough ("**the Site**"). Details of the application and our assessment of it were set out in the consultation document.

The consultation ended on 19 July 2023. During the consultation period, we received one representation from Peterborough City Council, who agreed with our proposal and did not raise any objections.

We will only make an appointment or variation if our assessment concludes that the application meets the criterion it has been made under; that customers or future customers on the site will be no worse off than if the site had been served by the existing appointee; and if the applicant will be able to finance the proper carrying out of its functions as a water and/or sewerage company. As set out in our consultation we are satisfied this is the case. The response we received to the consultation has not changed that view.

Having assessed Independent Water Networks' application and having taken account of the response we received to our consultation, we decided to grant a variation to Independent Water Networks' area of appointment to allow it to serve the site for water and sewerage services. This appointment became effective on 24 July 2023.

The Site maps for the variation can be found in Section 1 of this document.

The Variation Notice legally making the variation can be found in Section 2 of this document.
