# Variation of Independent Water Networks Limited's appointment to include Fontwell Avenue (Phase 2), Eastergate, West Sussex

On 25 July 2023, Ofwat began a <u>consultation</u> on a proposal to vary Independent Water Networks Limited's ("Independent Water Networks") appointment to become the water provider for a development in Portsmouth Water Limited's ("Portsmouth Water") water supply area called Fontwell Avenue (Phase 2), Eastergate in West Sussex ("the Site"). Details of the application and our assessment of it were set out in the consultation document.

The consultation ended on 24 August 2023. On 25 July 2023, Portsmouth Water advised that it has no comments in relation to this consultation. We received no other responses to the consultation.

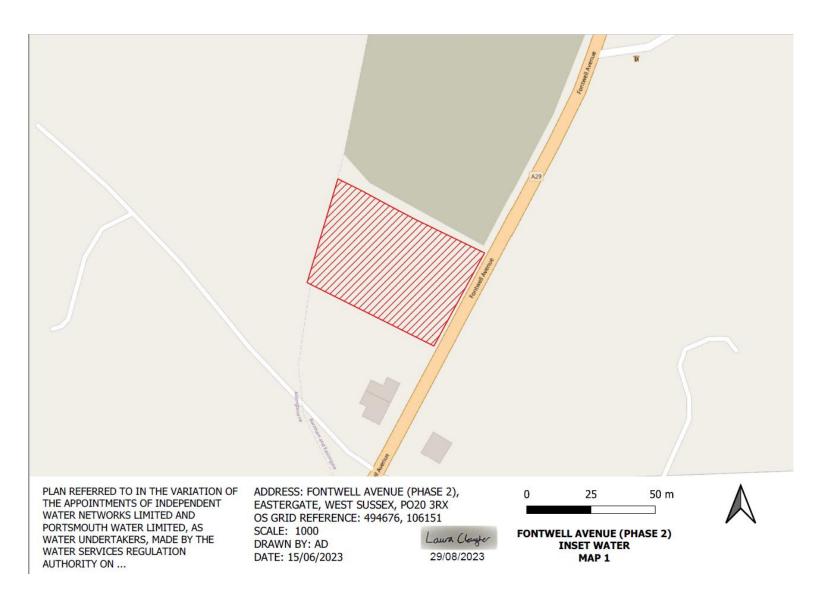

We will only make an appointment or variation if our assessment concludes that the application meets the criterion it has been made under; that customers or future customers on the site will be no worse off than if the site had been served by the existing appointee; and if the applicant will be able to finance the proper carrying out of its functions as a water and/or sewerage company. As set out in our consultation we are satisfied this is the case.

Having assessed Independent Water Networks' application and having assessed the response we received to our consultation, we decided to grant a variation to Independent Water Networks' area of appointment to allow it to serve the Site for water. This appointment became effective on 30 August 2023.

The Site map for the variation can be found in Section 1 of this document. This Site is Phase 2 of the adjacent site <u>Fontwell Avenue</u> which was granted in October 2021.

The Variation Notice legally making the variation can be found in Section 2 of this document.
