

Variation of Independent Water Networks Limited's appointment to include Herkomer Close, Lockleaze, Bristol

On 11 May 2023, Ofwat began a [consultation](#) on a proposal to vary Independent Water Networks Limited's ("**Independent Water Networks**") appointment to become the water and sewerage services provider for a development in South West Water Limited's ("**South West Water**") water supply area called Herkomer Close, Lockleaze, Bristol, Avon ("**the Site**"). Details of the application and our assessment of it were set out in the consultation document.

The consultation ended on 9 June 2023. We received no responses to our consultation.

On 10 July 2023, Independent Water Networks requested to change its application to provide water services only to the Site and to remove those aspects of its application related to providing sewerage services. At the current time the sewerage services will remain with the incumbent. There are no other material changes to the variation. We have completed a further financial assessment of the application reflecting this change and it does not change our overall conclusions.

We will only make an appointment or variation if our assessment concludes that the application meets the criterion it has been made under; that customers or future customers on the site will be no worse off than if the site had been served by the existing appointee; and if the applicant will be able to finance the proper carrying out of its functions as a water and/or sewerage company. As set out in our consultation we are satisfied this is the case.

Having assessed Independent Water Networks' application and having received no responses to our consultation, we decided to grant a variation to Independent Water Networks' area of appointment to allow it to serve the Site for water services. This appointment became effective on 2 August 2023.

The Site Map for the variation can be found in Section 1 of this document.

The Variation Notice legally making the variation can be found in Section 2 of this document.
