

Variation of Independent Water Networks Limited's appointment to include The Hyde, Colindale

On 7 November 2022, Ofwat began a [consultation](#) on a proposal to vary Independent Water Networks Limited's (“**Independent Water Networks**”) appointment to become the water and sewerage services provider for a development in Affinity Water Limited's (“**Affinity Water**”) water supply area and Thames Water Utilities Limited's (“**Thames Water**”) sewerage services area called The Hyde, Colindale in London (“**the Site**”). Details of the application and our assessment of it were set out in the consultation document.

The consultation ended on 7 December 2022. During the consultation period, we received no representations. Since publication of our consultation, Independent Water Networks has confirmed that there was an error in the number of business customers its application said would be on the Site; this should be two business customers and not three as noted on the consultation notice. This correction does not affect our assessment of the application.

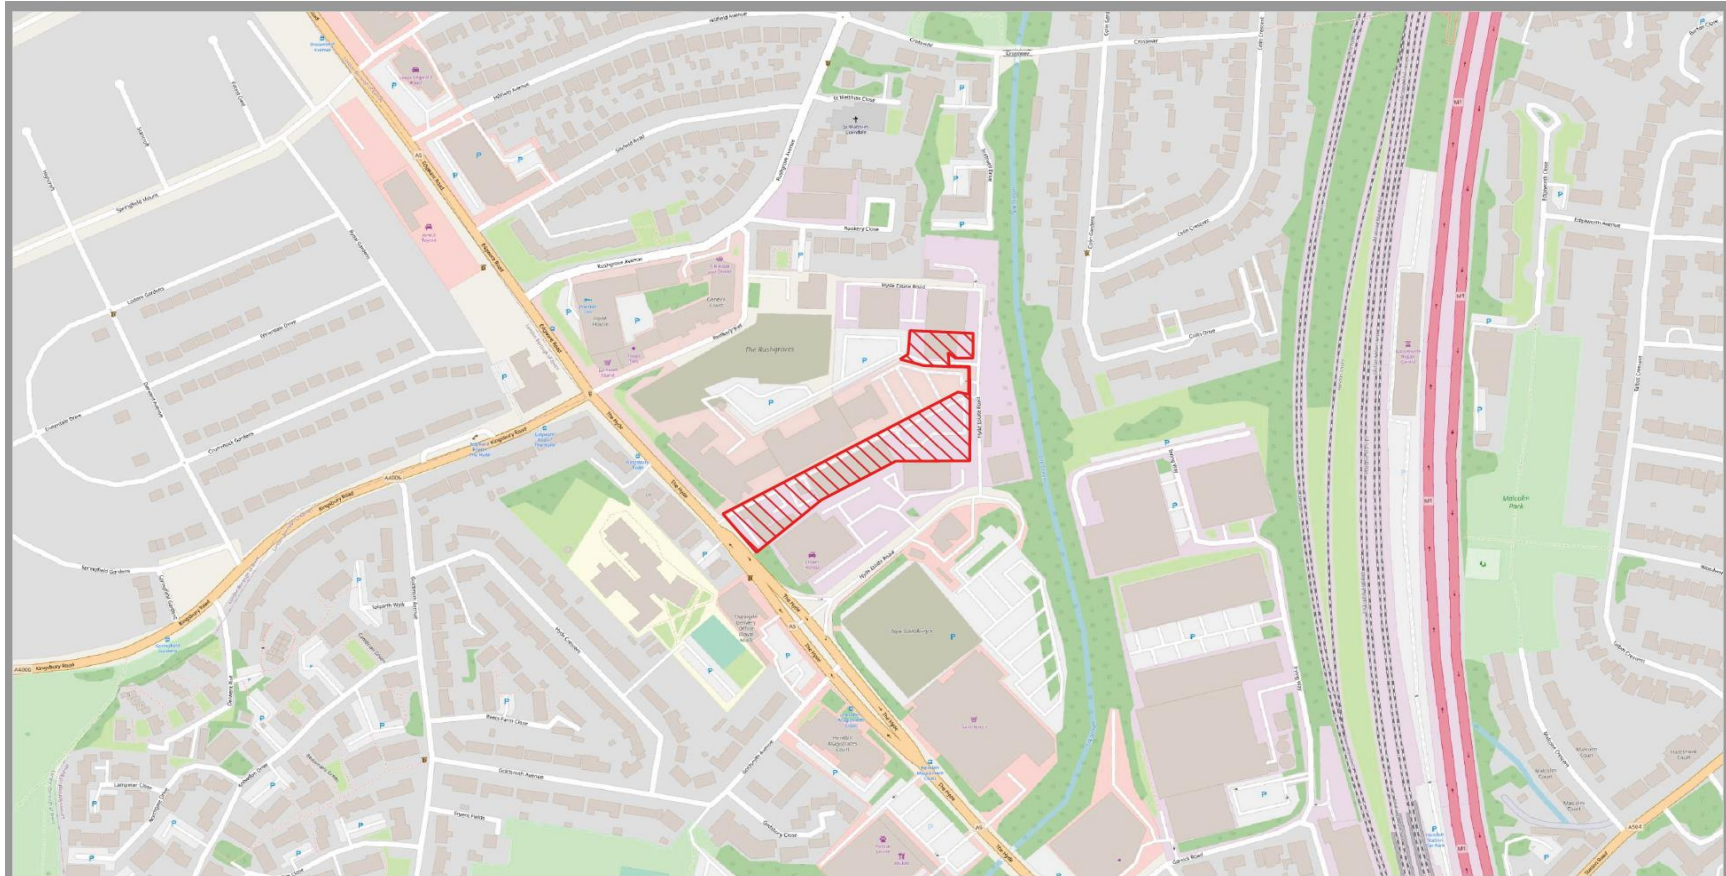

We will only make an appointment or variation if our assessment concludes that the application meets the criterion it has been made under; that customers or future customers on the Site will be no worse off than if the Site had been served by the existing appointee; and if the applicant will be able to finance the proper carrying out of its functions as a water and/or sewerage company. As set out in our consultation, we are satisfied this is the case.

Having assessed Independent Water Networks' application and having received no responses to our consultation, we decided to grant a variation to Independent Water Networks' area of appointment to allow it to serve the Site for water and sewerage services. This appointment became effective on 21 August 2023.

The Site Maps for the variation can be found in Section 1 of this document.

The Variation Notice legally making the variation can be found in Section 2 of this document.
