**Subject:** RE: Dŵr Cymru response / FW: Proposed licence modifications to Condition B: Charges

■

I have caught up with the team and as we had no further comments to make (other than those already made through the PR24 consultation process) on the changes to the inclusion / exclusion of Developer Services within price controls, no response was felt necessary.

In hindsight we should have communicated this to you formally, so apologies for that. For the avoidance of doubt, we accept the changes and have no further comments on the proposed changes.

Hope that's ok

Thanks

■
