

Variation of Independent Water Networks Limited's appointment to include Sherecroft Farm, Hampshire

On 27 June 2023, Ofwat began a [consultation](#) on a proposal to vary Independent Water Networks Limited's (“**Independent Water Networks**”) appointment to become the water provider for a development in Southern Water Services Limited's (“**Southern Water**”) water supply area called Sherecroft Farm, Hampshire (“**the Site**”). Details of the application and our assessment of it were set out in the consultation document.

The consultation ended on 27 July 2023. We received no responses to the consultation.

During the consultation period Independent Water Networks notified us that it had provided an incorrect map with its application and it needed to update this to remove a section of land from the Site's boundary map. We notified the stakeholders of the change to the consultation and received no further comments. There were no other changes to the application's details and therefore the change did not change the outcome of our assessment of the Site.

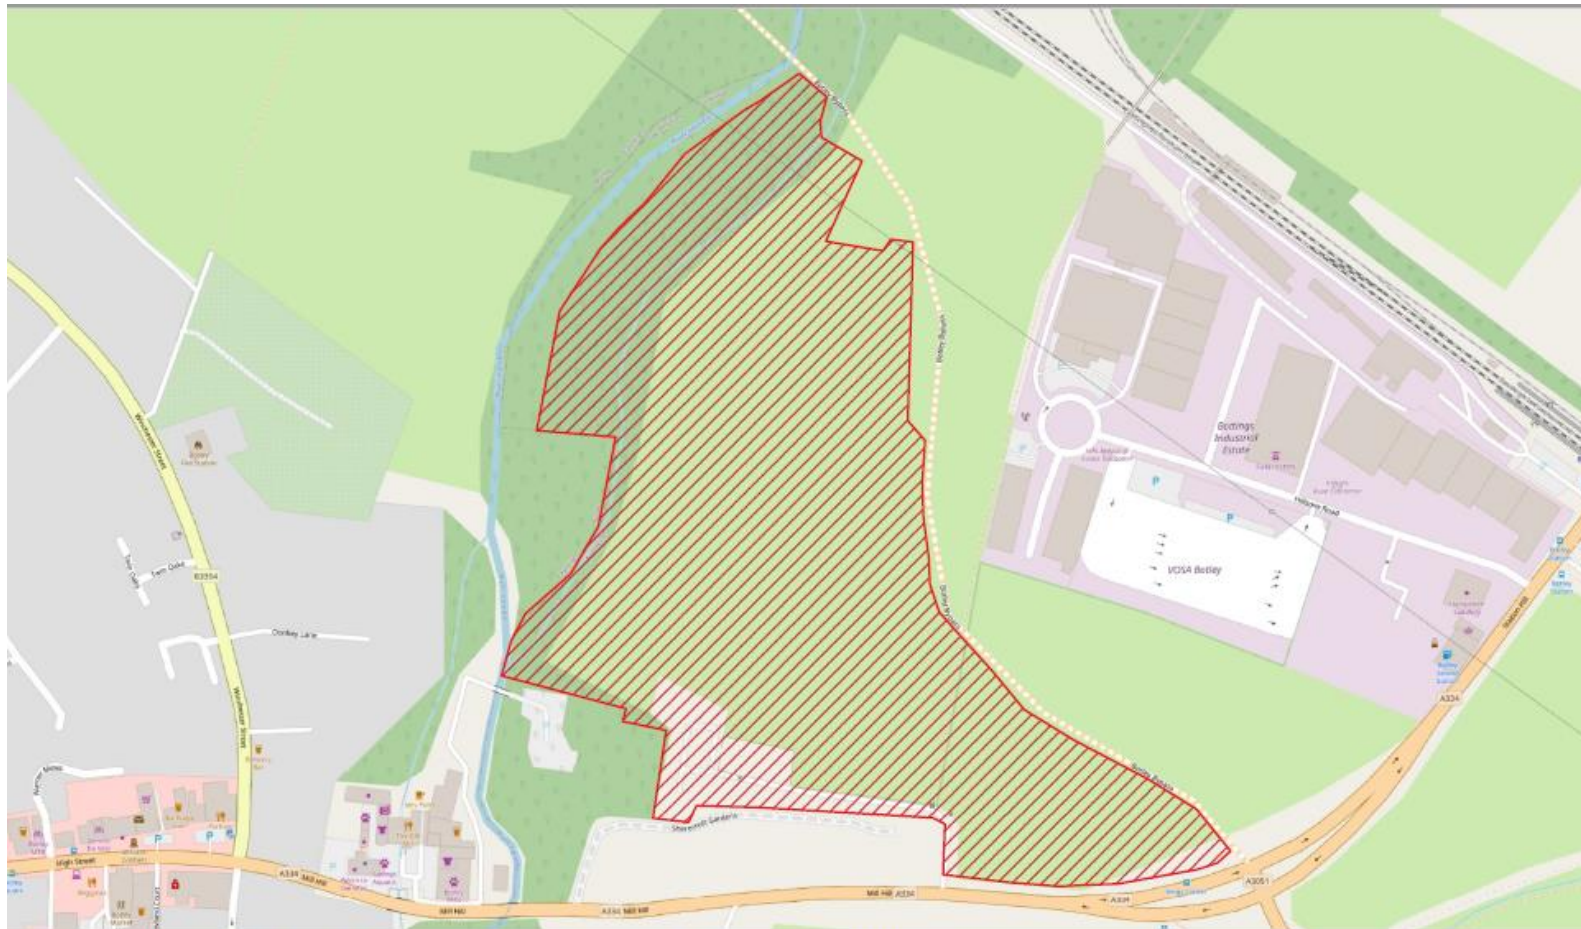

We will only make an appointment or variation if our assessment concludes that the application meets the criterion it has been made under; that customers or future customers on the site will be no worse off than if the site had been served by the existing appointee; and if the applicant will be able to finance the proper carrying out of its functions as a water company. As set out in our consultation we are satisfied this is the case.

Having assessed Independent Water Networks' application and having received no responses to our consultation, we decided to grant a variation to Independent Water Networks' area of appointment to allow it to serve the Site for water. This appointment became effective on 10 July 2023.

The Site Map for the variation can be found in Section 1 of this document.

The Variation Notice legally making the variation can be found in Section 2 of this document.
