Dear Ofwat,

Thank you for the opportunity to respond to our in-period draft determination for the 2022/23 reporting year. We can confirm that we have no comments.

On our leakage performance, we have provided Ofwat with our response to query SSC-APR-IP-008 in relation to voids.

We agree with the tabular information published in section 2 of the draft determination and the resultant impact on our price controls.

Yours faithfully,

Philip Saynor  
Director of Regulation.
