

Variation of Icosa Water Services Limited's appointment to include North Road, Holsworthy, Devon

On 11 July 2023, Ofwat began a [consultation](#) on a proposal to vary Icosa Water Services Limited's ("**Icosa Water**") appointment to become the water and sewerage services provider for a development in South West Water Limited's ("**South West Water**") water supply area and sewerage services area called North Road, Holsworthy, Devon ("**the Site**"). Details of the application and our assessment of it were set out in the consultation document.

The consultation ended on 8 August 2023. During the consultation period, we received representations from one organisation, South West Water who did not have any objections to the consultation; we have set out details of its response in section 1 of this document.

We will only make an appointment or variation if our assessment concludes that the application meets the criterion it has been made under; that customers or future customers on the site will be no worse off than if the site had been served by the existing appointee; and if the applicant will be able to finance the proper carrying out of its functions as a water and sewerage company. As set out in our consultation we are satisfied this is the case. The responses we have received to the consultation have not changed that view.

Having assessed Icosa Water's application and having taken account of the response we received to our consultation, we decided to grant a variation to Icosa Water's area of appointment to allow it to serve the Site for water and sewerage services. This appointment became effective on 17 October 2023.

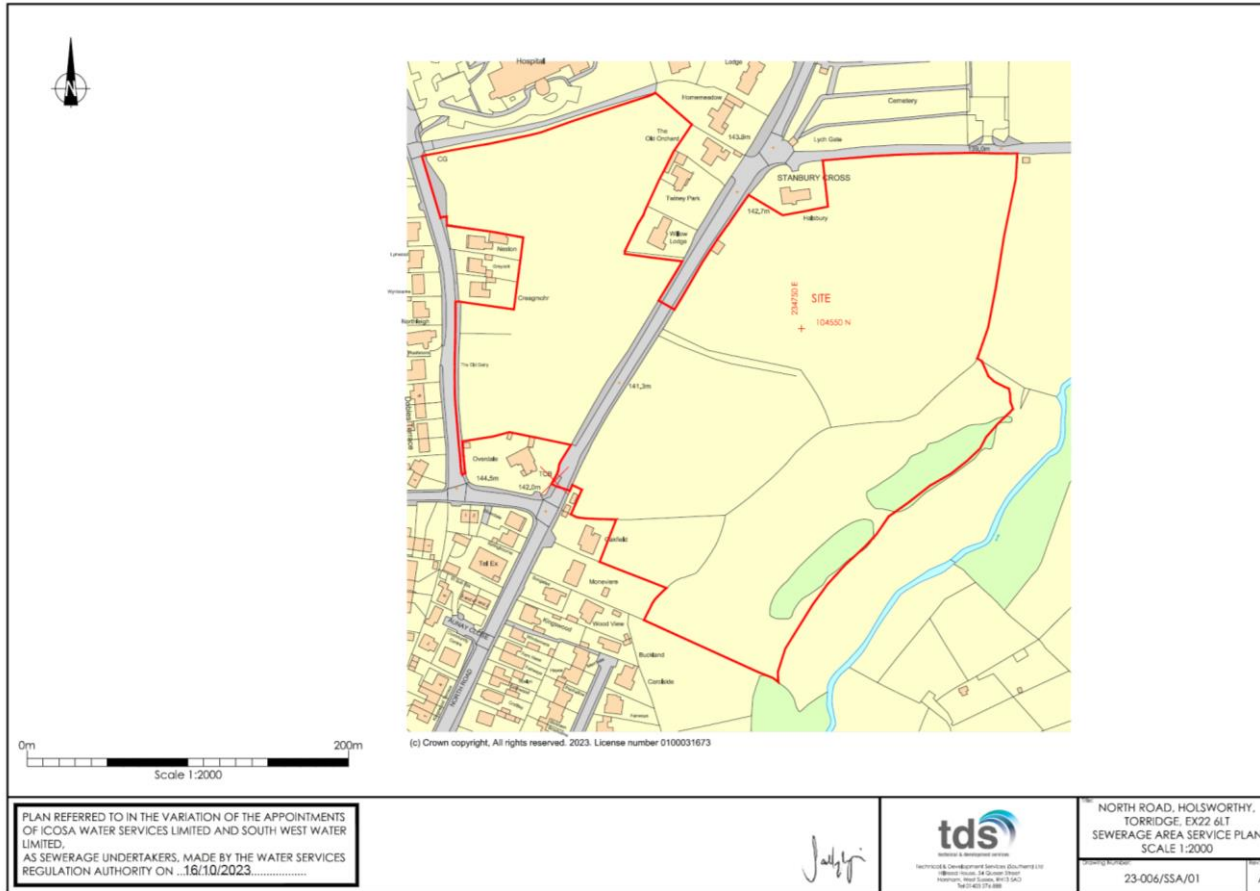

The Site Maps for the variation can be found in Section 2 of this document.

The Variation Notice legally making the variation can be found in Section 3 of this document.

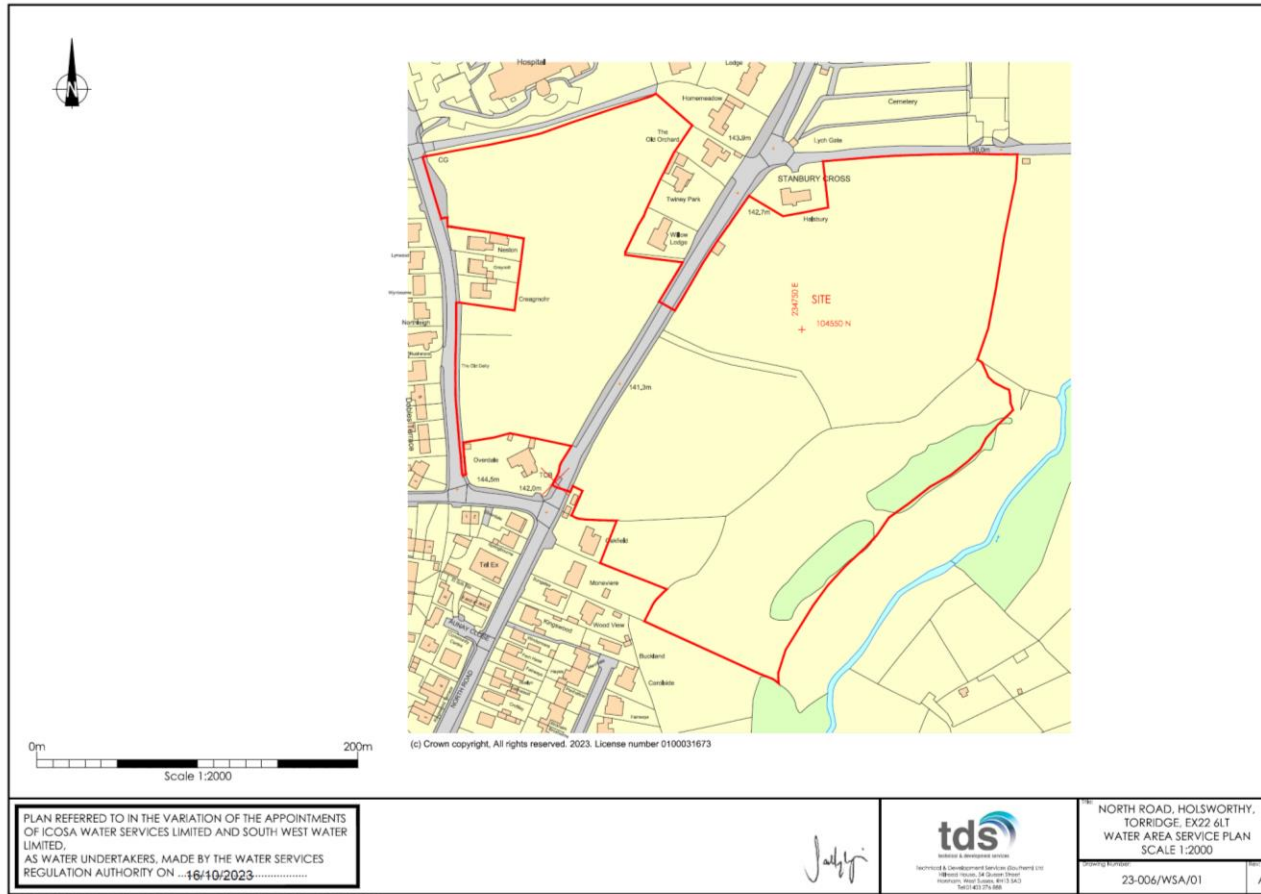

1. South West Water's Response

In its consultation response South West Water set out that it supports the development of markets where customers could benefit, or in the least suffer no detriment. It confirmed that it has no objection to the proposal to grant this variation.
