

Variation of Independent Water Networks Limited's appointment to include Prince Philip Park (Parcel 1.9), Bordon, Petersfield, Hampshire

On 23 October 2023, Ofwat began a [consultation](#) on a proposal to vary Independent Water Networks Limited's (“**Independent Water Networks**”) appointment to become the water services provider for a development in South East Water Limited's (“**South East Water**”) water supply area called Prince Philip Park (Parcel 1.9), Bordon, Petersfield, Hampshire (“**the Site**”). Details of the application and our assessment of it were set out in the consultation document.

At consultation, the application included sewerage services. Following publication of our consultation document, Independent Water Networks withdrew the sewerage element of the application and requested that it proceed as an application for water services only. We have notified the statutory consultees of this change and updated our financial assessment of the application and remain comfortable with our proposal to grant this variation.

The consultation ended on 20 November 2023. During the consultation period, we received no representations.

We will only make an appointment or variation if our assessment concludes that the application meets the criterion it has been made under; that customers or future customers on the site will be no worse off than if the site had been served by the existing appointee; and if the applicant will be able to finance the proper carrying out of its functions as a water and/or sewerage company. As set out in our consultation we are satisfied this is the case, and having received no responses to the consultation have not changed that view.

Having assessed Independent Water Networks' application and having taken account of the responses we received to our consultation, we decided to grant a variation to Independent Water Networks' area of appointment to allow it to serve the Site for water services. This appointment became effective on 5 December 2023.

The Site Map for the variation can be found in Section 1 of this document.

The Variation Notice legally making the variation can be found in Section 2 of this document.
