

Variation of Independent Water Networks Limited's appointment to include Roe Wood Park, Romford, Essex

On 25 October 2023, Ofwat began a [consultation](#) on a proposal to vary Independent Water Networks Limited's ("Independent Water Networks") appointment to become the water and sewerage services provider for a development in Northumbrian Water Limited's ("Northumbrian Water") water supply area and Thames Water Services Limited's ("Thames Water") sewerage services area called Roe Wood Park, Romford in Essex ("the Site"). Details of the application and our assessment of it were set out in the consultation document.

The consultation ended on 22 November 2023. We did not receive any representations during the consultation period.

On 22 November 2023 Independent Water Networks notified us that it wished to remove the sewerage aspect from its application. Independent Water Networks therefore wished to proceed with a water only application. As the consultation for this application was due to conclude on 22 November 2023, we notified the statutory stakeholders of the changes and allowed until 11 December 2023 for any new representations to be made. We received no further comments. We reassessed the financial viability of the Site following the removal of sewerage services and we remain satisfied that Independent Water Networks will be able to finance its functions if this variation is granted.

We will only make an appointment or variation if our assessment concludes that the application meets the criterion it has been made under; that customers or future customers on the site will be no worse off than if the site had been served by the existing appointee; and if the applicant will be able to finance the proper carrying out of its functions as a water and/or sewerage company. As set out in our consultation we are satisfied this is the case.

Having assessed Independent Water Networks' application and its consequent changes to the application, and having received no responses to our consultation, we decided to grant a variation to Independent Water Networks' area of appointment to allow it to serve the Site for water services. This appointment became effective on 20 February 2024.

The Site Map for the variation can be found in Section 1 of this document.

The Variation Notice legally making the variation can be found in Section 2 of this document.
