

Variation of Icosa Water Services Limited's appointment to include Lower Rainham Road, Gillingham

On 5 February 2024, Ofwat began a consultation on a proposal to vary Icosa Water Services Limited's ("**Icosa Water**") appointment to become the water and sewerage services provider for a development in Southern Water Services Limited's ("**Southern Water**") water supply and sewerage services area called Lower Rainham Road, Gillingham in Kent ("**the Site**"). Details of the application and our assessment of it were set out in the consultation document.

The consultation ended on 4 March 2024. During the consultation period, we received no representations.

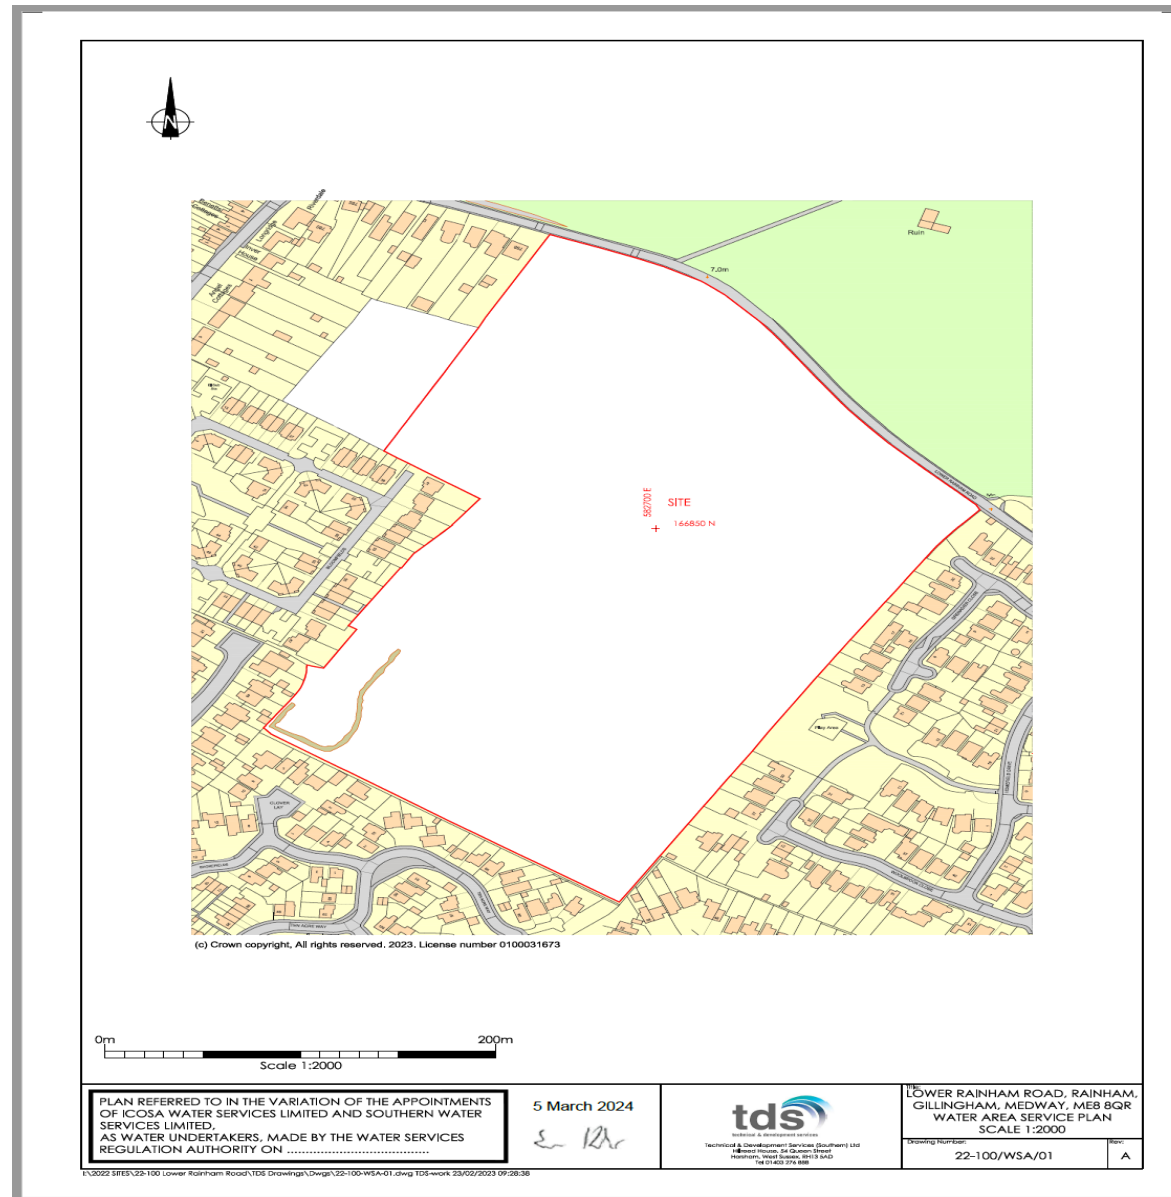

We will only make an appointment or variation if our assessment concludes that the application meets the criterion it has been made under; that customers or future customers on the Site will be no worse off than if the Site had been served by the existing appointee; and if the applicant will be able to finance the proper carrying out of its functions as a water and sewerage company. As set out in our consultation, we are satisfied this is the case.

Having assessed Icosa Water's application and having received no responses to our consultation, we decided to grant a variation to Icosa Waters area of appointment to allow it to serve the Site for water and sewerage services. This appointment became effective on 6 March 2024.

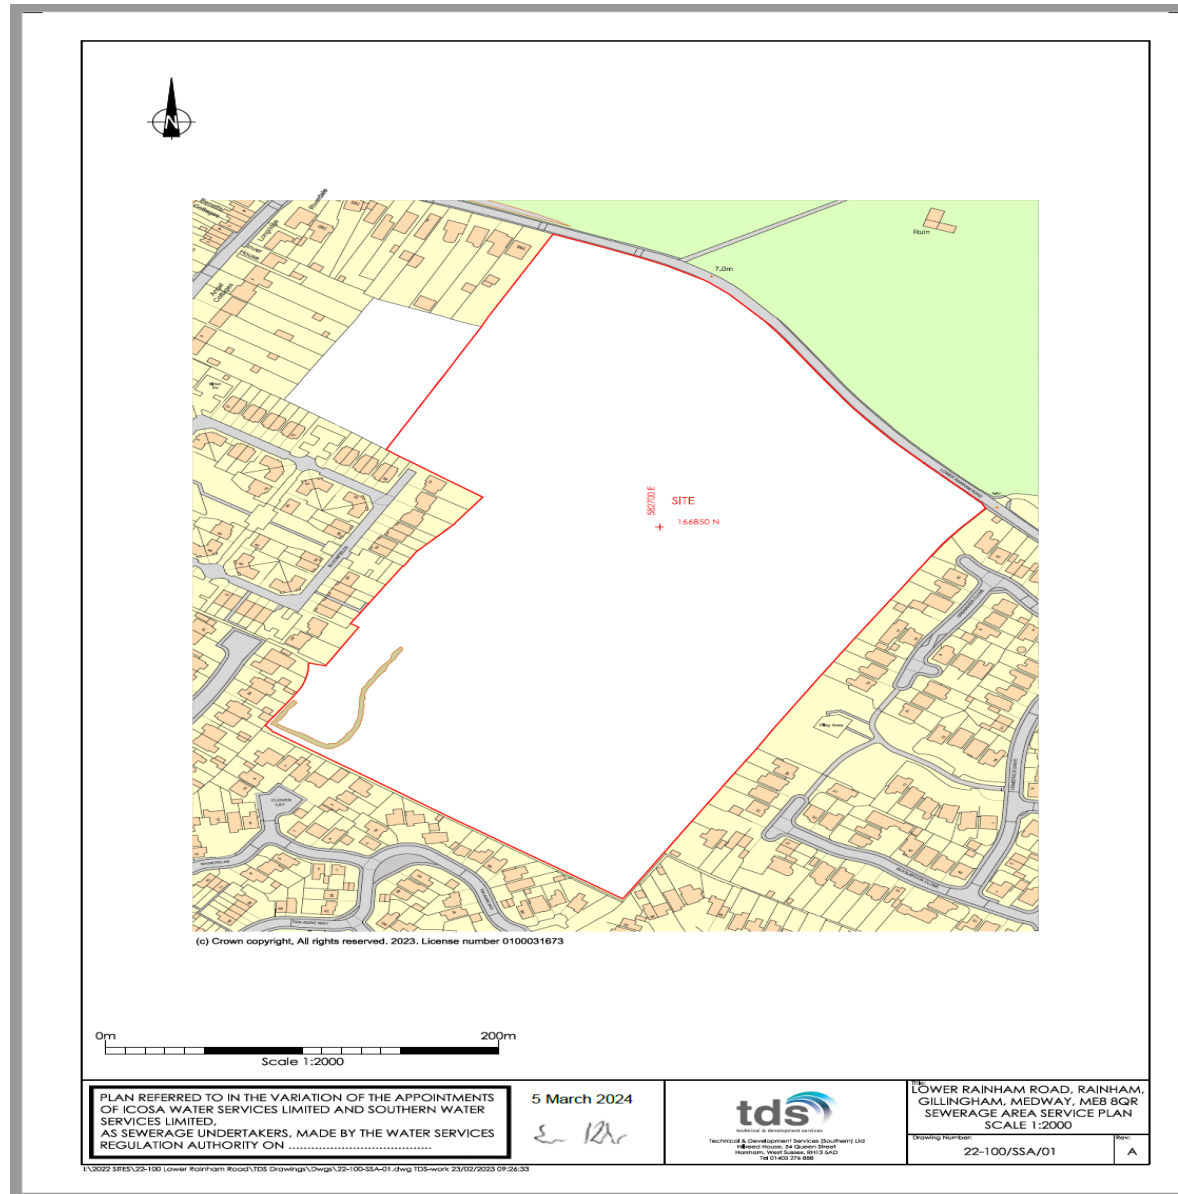

The Site maps for the variation can be found in Section 1 of this document.

The Variation Notice legally making the variation can be found in Section 2 of this document.
