

Variation of Icosa Water Services Limited's appointment to include Land to the West of Park Farm, Hellingly

On 11 December 2023, Ofwat began a [consultation](#) on a proposal to vary Icosa Water Services Limited's ("**Icosa Water**") appointment to become the sewerage services provider for a development in Southern Water Services Limited's ("**Southern Water**") sewerage services area called Land to the West of Park Farm, Hellingly in East Sussex ("**the Site**"). Details of the application and our assessment of it were set out in the consultation document.

The consultation ended on 11 January 2024. During the consultation period, we did not receive any representations or comments in response to our proposal.

We will only make an appointment or variation if our assessment concludes that the application meets the criterion it has been made under; that customers or future customers on the site will be no worse off than if the site had been served by the existing appointee; and if the applicant will be able to finance the proper carrying out of its functions as a sewerage company. As set out in our consultation we are satisfied this is the case.

Having assessed Icosa Water's application and having received no responses to our consultation, we decided to grant a variation to Icosa Water's area of appointment to allow it to serve the Site for sewerage services. This appointment became effective on 28 March 2024.

The Site map for the variation can be found in Section 1 of this document.

The Variation Notice legally making the variation can be found in Section 2 of this document.
