

Variation of Icosa Water Services Limited's appointment to include Grange Road, Southampton, Hampshire

On 16 January 2024 Ofwat began a [consultation](#) on a proposal to vary Icosa Water Services Limited's ("Icosa Water") appointment to become the water services provider for a development in Southern Water Services Limited's ("Southern Water") water supply area called Grange Road, Southampton, Hampshire ("the Site"). Details of the application and our assessment of it were set out in the consultation document.

The consultation ended on 13 February 2024. During the consultation period, we received a representation from Eastleigh Council, who acknowledged receipt and stated that it had no concerns or objections.

We will only make an appointment or variation if our assessment concludes that the application meets the criterion it has been made under; that customers or future customers on the site will be no worse off than if the site had been served by the existing appointee; and if the applicant will be able to finance the proper carrying out of its functions as a water company. As set out in our consultation we are satisfied this is the case. The response we have received to the consultation has not changed that view.

Having assessed Icosa Water's application and having taken account of the response we received to our consultation, we decided to grant a variation to Icosa Water's area of appointment to allow it to serve the Site for water services. This appointment became effective on 22 March 2024.

The Site map for the variation can be found in Section 1 of this document.

The Variation Notice legally making the variation can be found in Section 2 of this document.
